In 2010, French mathematician Cédric Villani received the Fields Medal, the most coveted prize in mathematics, in recognition of a proof which he devised with his close collaborator Clément Mouhot to explain one of the most surprising theories in classical physics. Birth of a Theorem is Villani's own account of the years leading up to the award. It invites readers inside the mind of a great mathematician as he wrestles with the most important work of his career. But you don't have to understand nonlinear Landau damping to love Birth of a Theorem. It doesn't simplify or overexplain; rather, it invites readers into collaboration. Villani's diaries, emails, and musings enmesh you in the process of discovery. You join him in unproductive lulls and late-night breakthroughs. You're privy to the dining-hall conversations at the world's greatest research institutions. Villani shares his favorite songs, his love of manga, and the imaginative stories he tells his children. In mathematics, as in any creative work, it is the thinker's whole life that propels discovery—and with Birth of a Theorem, Cédric Villani welcomes you into his. For five years, ending in 2005, Sheryl Karas worked as a Family Caregiving Consultant at the Alzheimer's Association and Del Mar Caregiver Resource Center helping families taking care of loved ones with incurable progressive memory loss and dementia. Trying to find services needed to provide basic care is what brought people in to see her first, but as the caregivers became more ensconced in their caregiving roles inevitably emotional and spiritual issues would become their primary concerns. Sheryl's role shifted to providing a combination of practical and spiritual care. During this period she wrote a caregiver newsletter every month and this book is the result. The author uses a very open, nondogmatic spiritual frame, appropriate for people of all religious backgrounds or none at all. Inspirational, comforting, and informative--highly recommended for anyone involved with long term care.
