**At first, nothing lived on Earth. It was a noisy, hot, scary place. Choking gas exploded from volcanoes and oceans of lava bubbled around the globe... Then in the deep, dark ocean, something amazing happened. This is an exciting and dramatic story about how life began and developed on Planet Earth, written especially for younger children. The authors explain how the first living cell was created, and how the cells multiply and create jellyfish and worms, and then fish with bendy necks, which drag themselves out of the water into swampy forests. They tell the story of the biggest creatures that have ever walked on land - the dinosaurs. Long after that, hairy creatures who have babies, not eggs, take over, stand on two legs and spread around the world, some of them living through cataclysmic events such as ice ages and volcanic eruptions. Everyone living today is related to these survivors. With delightful illustrations including lots of detail and humour, all carefully researched and checked, this book shows the development of life on Earth in a truly accessible and simple way. Sullivan, R.S.M., is Professor Emerita of Language and Literature, and Dean Emerita of the College of Liberal Arts, at the Rochester Institute of Technology. She is the author of numerous works, including *The Correspondence of Catherine McAuley, 1818-1841* (CUA Press) and *Catherine McAuley and the Tradition of Mercy*. Why have people from different cultures and eras formulated myths and stories with similar structures? What does this similarity tell us about the mind, morality, and structure of the world itself? From the author of *12 Rules for Life: An Antidote to Chaos* comes a provocative hypothesis that explores the connection between what modern neuropsychology tells us about the brain and what rituals, myths, and religious stories have long narrated. A cutting-edge work that brings together neuropsychology, cognitive science, and Freudian and Jungian approaches to mythology and narrative, *Maps of Meaning* presents a rich theory that makes the wisdom and meaning of myth accessible to the critical modern mind. The Byzantine mystic,**

writer, and monastic leader Symeon the New Theologian is considered a saint by the Orthodox Church. *The Life* was written more than 30 years after Symeon's death by his disciple and apologist Niketas Stethatos. This translation, based on an authoritative Greek edition, makes it accessible to English readers for the first time. "What are you reading?" That's the question Will Schwalbe asks his mother, Mary Anne, as they sit in the waiting room of the Memorial Sloan-Kettering Cancer Center. In 2007, Mary Anne returned from a humanitarian trip to Pakistan and Afghanistan suffering from what her doctors believed was a rare type of hepatitis. Months later she was diagnosed with a form of advanced pancreatic cancer, which is almost always fatal, often in six months or less. This is the inspiring true story of a son and his mother, who start a "book club" that brings them together as her life comes to a close. Over the next two years, Will and Mary Anne carry on conversations that are both wide-ranging and deeply personal, prompted by an eclectic array of books and a shared passion for reading. Their list jumps from classic to popular, from poetry to mysteries, from fantastic to spiritual. The issues they discuss include questions of faith and courage as well as everyday topics such as expressing gratitude and learning to listen. Throughout, they are constantly reminded of the power of books to comfort us, astonish us, teach us, and tell us what we need to do with our lives and in the world. Reading isn't the opposite of doing; it's the opposite of dying. Will and Mary Anne share their hopes and concerns with each other—and rediscover their lives—through their favorite books. When they read, they aren't a sick person and a well person, but a mother and a son taking a journey together. The result is a profoundly moving tale of loss that is also a joyful, and often humorous, celebration of life: Will's love letter to his mother, and theirs to the printed page. This eBook edition includes a Reading Group Guide. A joy-filled life is possible...And you can have it right where you are. Those desires that tug on your heart and keep you up at night—the big dreams, grand adventures, new experiences—require purpose and planning, time and effort. Adam Smith became famous for *The Wealth of Nations*, but the Scottish economist also cared deeply about our moral choices and behavior--the subjects of his other brilliant book, *The Theory of Moral Sentiments* (1759). Now, economist Russ Roberts shows why Smith's neglected work might be the greatest self-help book you've never read. Roberts explores Smith's unique and fascinating approach to fundamental questions such as: - What is the deepest source of human satisfaction? - Why do we sometimes swing between selfishness and altruism? - What's the connection between morality and happiness? Drawing on current events, literature, history, and pop culture, Roberts offers an accessible and thought-provoking view of human behavior through the lenses

**of behavioral economics and philosophy"-- When her best friend is found dead, supposedly from a drug overdose, seventeen-year-old Susan suspects murder and determines to find out the truth. Each of us has but one life to live on this earth. What we do with it is our choice. Are we drifting through it as spectators, reacting to our circumstances when necessary and wondering just how we got to this point anyway? Or are we directing it, maximizing the joy and potential of every day, living with a purpose or mission in mind? Too many of us are doing the former--and our lives are slipping away one day at a time. But what if we treated life like the gift that it is? What if we lived each day as though it were part of a bigger picture, a plan? That's what New York Times bestselling author Michael Hyatt and executive coach Daniel Harkavy show us how to do: to design a life with the end in mind, determining in advance the outcomes we desire and path to get there. In this step-by-step guide, they share proven principles that help readers create a simple but effective life plan so that they can get from where they are now to where they really want to be--in every area of life. The choice to live an ordinary life is no longer an option! Greatness--lasting greatness--is a desire built into every human heart. For the believer in Christ, it is not only possible, but expected. How will your life matter? God wants your life to count for eternity. He wants you to join the team of rescuers He is sending into a desperate world. The wife of the American poet George Oppen tells of their experiences traveling throughout America and of their associations with the Communist Party. #1 NEW YORK TIMES BESTSELLER • "A lucid, intelligent page-turner" (Los Angeles Times) that challenges long-held assumptions about Jesus, from the host of Believer Two thousand years ago, an itinerant Jewish preacher walked across the Galilee, gathering followers to establish what he called the "Kingdom of God." The revolutionary movement he launched was so threatening to the established order that he was executed as a state criminal. Within decades after his death, his followers would call him God. Sifting through centuries of mythmaking, Reza Aslan sheds new light on one of history's most enigmatic figures by examining Jesus through the lens of the tumultuous era in which he lived. Balancing the Jesus of the Gospels against the historical sources, Aslan describes a man full of conviction and passion, yet rife with contradiction. He explores the reasons the early Christian church preferred to promulgate an image of Jesus as a peaceful spiritual teacher rather than a politically conscious revolutionary. And he grapples with the riddle of how Jesus understood himself, the mystery that is at the heart of all subsequent claims about his divinity. Zealot yields a fresh perspective on one of the greatest stories ever told even as it affirms the radical and transformative nature of Jesus' life and mission. Praise for Zealot "Riveting . . . Aslan synthesizes Scripture and scholarship to create an original account."—The New Yorker "Fascinatingly and convincingly drawn . . . Aslan may come as close as one can to respecting those who revere Jesus as the peace-loving, turn-the-other-cheek, true son of God depicted in modern Christianity, even as he knocks down that image."—The Seattle Times "[Aslan's] literary talent is as essential to the effect of Zealot as are his scholarly and journalistic chops. . . . A vivid, persuasive portrait."—Salon "This tough-minded, deeply political book does full justice to the real Jesus, and honors him in the process."—San Francisco Chronicle "A special and revealing work, one that believer and skeptic alike will find surprising, engaging, and original."—Jon Meacham, Pulitzer Prize-winning author of Thomas Jefferson: The Art of Power "Compulsively readable . . . This superb work is highly recommended."—Publishers Weekly (starred review) After the tragic sinking of a cargo ship, one solitary lifeboat remains bobbing on the wild, blue Pacific. The only survivors from the wreck are a sixteen-year-old boy named Pi, a hyena, a zebra with a broken leg, a female orang-utan - and a 450-pound Royal Bengal tiger. **The American Dream beckons people to spend their lives on trivial diversions, slipping through life caught up with seeking success, comfort, and pleasure above all else. But God designed people for far more than this. In this best-selling book, John Piper makes a passionate plea to the next generation to avoid the dangers of a wasted life, calling us to take risks and make sacrifices that matter for eternity—with a single, soul-satisfying passion for the glory of God that seeks to make much of him in every sphere of our lives. From the moment we are born, we are seekers. Our culture obsessively promotes the pursuit of money, success and self-improvement. At the end of each activity-jammed day, though, we collapse into bed discouraged by everything we have not checked off on our to-do lists, in despair that whatever we have accomplished is never enough. Worse still, when our dreams become derailed by the inherent tragedies of life—job loss, financial peril, sickness, or the death of a loved one—we feel devastated by the pain and injustice of it all. Nationally renowned author, therapist, and minister Wayne Muller offers healing for the perpetually stressed in A Life of Being, Having, and Doing Enough. By learning compassion and mercy for ourselves and by recognizing what is most profoundly true about who we are and what we need, we can gain the self-acceptance so that whatever we choose to do, in this moment, it is wholly enough. Muller mixes the writings of great spiritual and political leaders with inspirational anecdotes from his own life, inviting us to derive more satisfaction from less and pull gratitude out of the ashes of grief. The answer to what he describes as "authentic happiness" lies not in seeing the glass as half full instead of half empty. In reality, he writes, the glass is always half full and half empty. The world is neither broken nor whole, but eternally engaged in rhythms between joy and sorrow. With Muller's guidance, we may find ourselves on the most courageous spiritual pilgrimage of our lives. #1 New York Times Bestseller Over 10 million copies sold**

**In this generation-defining self-help guide, a superstar blogger cuts through the crap to show us how to stop trying to be "positive" all the time so that we can truly become better, happier people. For decades, we've been told that positive thinking is the key to a happy, rich life. "F\*\*k positivity," Mark Manson says. "Let's be honest, shit is f\*\*ked and we have to live with it." In his wildly popular Internet blog, Manson doesn't sugarcoat or equivocate. He tells it like it is—a dose of raw, refreshing, honest truth that is sorely lacking today. The Subtle Art of Not Giving a F\*\*k is his antidote to the coddling, let's-all-feel-good mindset that has infected American society and spoiled a generation, rewarding them with gold medals just for showing up. Manson makes the argument, backed both by academic research and well-timed poop jokes, that improving our lives hinges not on our ability to turn lemons into lemonade, but on learning to stomach lemons better. Human beings are flawed and limited—"not everybody can be extraordinary, there are winners and losers in society, and some of it is not fair or your fault." Manson advises us to get to know our limitations and accept them. Once we embrace our fears, faults, and uncertainties, once we stop running and avoiding and start confronting painful truths, we can begin to find the courage, perseverance, honesty, responsibility, curiosity, and forgiveness we seek. There are only so many things we can give a f\*\*k about so we need to figure out which ones really matter,**

**Manson makes clear. While money is nice, caring about what you do with your life is better, because true wealth is about experience. A much-needed grab-you-by-the-shoulders-and-look-you-in-the-eye moment of real-talk, filled with entertaining stories and profane, ruthless humor, *The Subtle Art of Not Giving a F\*\*k* is a refreshing slap for a generation to help them lead contented, grounded lives. In cities around the world, planning and health experts are beginning to understand the role of social and environmental conditions that lead to trauma. By respecting the lived experience of those who were most impacted by harms, some cities have developed innovative solutions for urban trauma. In *Cities for Life*, public health expert Jason Corburn shares lessons from three of these cities: Richmond, California; Medellín, Colombia; and Nairobi, Kenya. Corburn draws from his work with citizens, activists, and decision-makers in these cities over a ten-year period, as individuals and communities worked to heal from trauma—including from gun violence, housing and food insecurity, poverty, and other harms. *Cities for Life* is about a new way forward with urban communities that rebuilds our social institutions, practices, and policies to be more focused on healing and health. From the author of the acclaimed *Everybody Was So Young*, the definitive and major biography of the great choreographer and Broadway legend Jerome Robbins** To some, Jerome Robbins was a demanding perfectionist, a driven taskmaster, a theatrical visionary; to others, he was a loyal friend, a supportive mentor, a generous and entertaining companion and colleague. Born Jerome Rabinowitz in New York City in 1918, Jerome Robbins repudiated his Jewish roots along with his name only to reclaim them with his triumphant staging of *Fiddler on the Roof*. A self-proclaimed homosexual, he had romances or relationships with both men and women, some famous—like Montgomery Clift and Natalie Wood—some less so. A resolutely unpolitical man, he was forced to testify before Congress at the height of anti-Communist hysteria. A consummate entertainer, he could be paralyzed by shyness; nearly infallible professionally, he was conflicted, vulnerable, and torn by self-doubt. Guarded and adamantly private, he was an inveterate and painfully honest journal writer who confided his innermost thoughts and aspirations to a remarkable series of diaries and memoirs. With ballets like *Dances at a Gathering*, *Afternoon of a Faun*, and *The Concert*, he humanized neoclassical dance; with musicals like *On the Town*, *Gypsy*, and *West Side Story*, he changed the face of theater in America. In the pages of this definitive biography, Amanda Vaill takes full measure of the complicated, contradictory genius who was Jerome Robbins. She re-creates his childhood as the only son of Russian Jewish immigrants; his apprenticeship as a dancer and Broadway chorus gypsy; his explosion into prominence at the age of twenty-five with the ballet *Fancy Free* and its Broadway incarnation, *On the Town*; and his years of creative dominance in both theater and dance. She brings to life his colleagues and friends—from Leonard Bernstein and George Balanchine to Robert Wilson and Robert Graves—and his loves and lovers. And she tells the full story behind some of Robbins's most difficult episodes, such as his testimony before the House Un-American Activities Committee and his firing from the film version of *West Side Story*. Drawing on thousands of pages of documents from Robbins's personal and professional papers, to which she was granted unfettered access, as well as on other archives and hundreds of interviews, *Somewhere* is a riveting narrative of a life lived onstage, offstage, and backstage. It is also an accomplished work of criticism and social history that chronicles one man's phenomenal career and places it squarely in the cultural ferment of a time when New York City was truly "a helluva town." Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of

**ballet and the biting satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition. **The national bestseller celebrated as "the ultimate Johnny Cash biography . . . Rock writer great Robert Hilburn goes deep." -- Rolling Stone**

**In this, the definitive biography of an American legend, Robert Hilburn conveys the unvarnished truth about a musical superstar. Johnny Cash's extraordinary career stretched from his days at Sun Records with Elvis Presley and Jerry Lee Lewis to the remarkable creative last hurrah, at age 69, that resulted in the brave, moving "Hurt" video. As music critic for the Los Angeles Times, Hilburn knew Cash throughout his life: he was the only music journalist at the legendary Folsom Prison concert in 1968, and he interviewed both Cash and his wife June Carter just months before their deaths. Drawing upon a trove of never-before-seen material from the singer's inner circle, Hilburn creates an utterly compelling, deeply human portrait of a towering figure in country music, a seminal influence in rock, and an icon of American popular culture. Hilburn's reporting shows the astonishing highs and deep lows that marked the journey of a man of great faith and humbling addiction who throughout his life strove to use his music to lift people's spirits. **What does everyone in the modern world need to know? Renowned psychologist Jordan B. Peterson's answer to this most difficult of questions uniquely combines the hard-won truths of ancient tradition with the stunning revelations of cutting-edge scientific research. Humorous, surprising and informative, Dr. Peterson tells us why skateboarding boys and girls must be left alone, what terrible fate awaits those who criticize too easily, and why you should always pet a cat when you meet one on the street. What does the nervous system of the lowly lobster have to tell us about standing up straight (with our shoulders back) and about success in life? Why did ancient Egyptians worship the capacity to pay careful attention as the highest of gods? What dreadful paths do people tread when they become resentful, arrogant and vengeful? Dr. Peterson journeys broadly, discussing discipline, freedom, adventure and responsibility, distilling the world's wisdom into 12 practical and profound rules for life. 12 Rules for Life shatters the modern commonplaces of science, faith and human nature, while transforming and ennobling the mind and spirit of its readers. An enlightening story. . . Scott Billings has a pretty good life, or so it appears. But something is missing for him. Like many others, he finds himself just going through the motions, sleepwalking through life, until an unexpected and unique encounter with a street beggar allows him to see the possibility of a new reality; a dream world that is more real than anything he's ever experienced. It is a world that holds the answers to his questions about life . . . and his destiny.
