American Green: The Obsessive Quest for the Perfect Lawn May 12 2022 “Ted Steinberg proves once again that he is a master storyteller as well as our foremost environmental historian.”—Mike Davis The rise of the perfect lawn represents one of the most profound transformations in the history of the American landscape. American Green, Ted Steinberg’s witty exposé of this bizarre phenomenon, traces the history of the lawn from its explosion in the postwar suburban community of Levittown to the present love affair with turf colorants, leaf blowers, and riding mowers.

EVA Oct 25 2020 Called “today’s hottest financial idea and getting hotter” by fortune magazine, Economic Value Added (EVA) is the topic of conversation in financial circles around the world, from Germany and Japan to Singapore and South Africa. A revolutionary strategy for creating corporate and shareholder wealth that measures a company’s real profitability, it has been adopted by such prominent corporations as Coca-Cola, Eli Lilly, and Siemens AG—with spectacular financial results. Yet, despite its increasing visibility, most executives still only have a vague notion of what EVA is and what it can do for their company. This groundbreaking book explains and clarifies all. Written by Al Ehrbar, a leading business journalist and senior vice president at EVA inventor Stern Stewart & Co., *EVA: The Real Key to Creating Wealth* provides a complete, accessible overview that examines how exactly EVA works, how it is measured, what it can do to structure incentives for employees, and why it is as potent as it is. At its most basic, Economic Value Added is a measure of corporate performance that differs from most others by charging profit for the cost of all the capital a company employs, including equity. To help translate principle into real-world practice, Ehrbar presents revealing case histories of EVA success stories, including those of Briggs & Stratton, the U.S. Postal Service, and Coca-Cola, which was catapulted from mediocrity to the number one wealth creator in the world with the addition of EVA. An in-depth look at a breakthrough idea whose impact is being felt from corporate boardrooms to Wall Street, this indispensable book is must reading for business leaders looking to fully grasp—and profit from—“the real key to creating wealth.”

Early Retirement: a Roadmap to Success Jan 16 2020 Having retired early in life at the age of 45, back in the late 80’s, has been very advantageous to me. It gave me the time to devote many thousands of hours to this project and it should be very beneficial to you, as a reader. This book illustrates what has worked very profitably for me in the past and continues to work profitably to this day. In this book, there are valuable tips and some good sound financial and fundamental information. As President of three Corporations and three companies, from 1965 to present day, it has kept me quite busy over time. In the 90’s, as Owner, Producer, Director, and Host of a popular Radio Travel Show in southwest Florida, I was quite content. At the time, I felt I had done quite a bit in my life, but I also felt one project was missing. I had been asked many times, how I retired so young, and how I achieved my success in life. So one day in 2004, I said to myself why not sit down and write about it, hence this book. I do say at times, I am really in semi-retirement, very busy having fun. This book was written with good intentions, morals, and family values. As you read on, it is for all to enjoy, from ages 9 to 90.

Early Retirement: A Road Map to Success is a timeless book.

The Kid from Golden Apr 18 2020 “While Catherine Cox and I were writing *Apollo*, Jerry Bostick was one of a handful of people who became our go-to sources—the men who made the Apollo days come alive again. What great news that Jerry is now telling his story in all the detail that it deserves. It will be an indispensable source for future generations who want to understand that historic era.” Charles Murray, co-author, *Apollo* When author Jerry Bostick was eight years old, his family had indoor plumbing installed in their home. He thought they were living in the lap of luxury. In *The Kid from Golden*, Bostick shares his life story beginning with his birth in June of 1939 in that house in Golden, Mississippi. This memoir narrates a chronological rendering of Bostick’s family and memories and tells about his many accomplishments. The Kid from Golden discusses his early years growing up in rural Mississippi; to serving as a page in the US House of Representatives; to attending college; and working at NASA Mission Control during the Mercury, Gemini, Apollo and Skylab programs, Grumman Aerospace and United Space Alliance. Offering an insightful encapsulation of his career and personal life and the lessons learned throughout, Bostick dedicates *The Kid from Golden* to his grandchildren. He documents his stories and memories for the benefit of future generations.

Many are Cold but Few are Frozen Jul 22 2020 *Plain Tales* from Antarctica are short stories based on real incidents that occurred during the author’s two-year stay as a meteorologist at Halley 3, a British Research base in Antarctica located about 500 miles from the South Pole. In 1973 to 1975, Graham Chambers was part of an eighteen-man (no women) research group that lived in this fascinating yet unforgiving landscape. He writes: “It was a unique experience and one with sights, sounds and smells which are not forgotten after forty years. “Each story is based on real events and essentially is a true recollection, barring a strictly limited amount of literary licence and the limitations of human recollection. It is worth mentioning in this respect the ‘ witness’ phenomenon, whereby 12 people can witness the very same event and produce at least half a dozen unique recollections of it.” Thanks are due to the characters who inadvertently animated the stories. Some names have been changed and others not.”

The Dark Ages of My Youth Oct 13 2019 When Ward Degler graduated from journalism school, his mother speculated he would become a world-famous war correspondent or, at the very least, editor-in-chief of an influential newspaper. He did neither. Instead, he became a columnist, giving him the opportunity to write about subjects that interested him while avoiding everything that didn't. In *The Dark Ages of My Youth*, Degler shares a selected collection of the weekly columns written for the *Times Sentinel* in Zionsville, Indiana, from 1993 to 2010. The essays explore the way things were, where we've been, and where we are going. He reveals the challenges of an eight-year building project that was supposed to be completed in three months. He narrates his bafflement in dealing with the world's most headstrong dog. With humor, he details the

foibles and dilemmas of everyday living. And, he profiles the special people who have altered and enriched his life. From the simple to the complex, from the sublime to the silly, *The Dark Ages of My Youth* takes a charming walk through both the past and present.

The Age of Briggs and Stratton Mar 10 2022 The world's largest manufacturer of the two-stroke engine may seem like an unusual jumping-off point for poetry. But Peter Culley's second book about his hometown Nanaimo stems from his realization that there is not an hour of his waking existence when he cannot somewhere hear a leaf blower, a lawn mower or another piece of Briggs & Stratton-powered machinery. This book was written in a little over a year — a year which saw droughts in Tofino, floods on the Gulf Coast & Canadian boots on the ground in the never-ending "war on terror". Meanwhile, Hammertown — Culley's half-imagined version of the place where he lives — is being ripped apart by corporate boondoggles, accelerating development and the triumph of the service economy. In Culley's bitterly lyrical poems elements of this disappearing world appear as bad jokes, snatches of song and passages of reminiscence. Old records and half-remembered films are arrayed against impending collapse. Like small and noisy engines themselves, Culley's poems address the impossible contradictions of our unnamed era.

Ben and the Art of Lawnmower Maintenance Jul 02 2021 The average American spends 70 hours per year, the equivalent of nearly two full work weeks, on lawn and garden care. For some, lawn care is an onerous task, grudgingly accomplished, and for others it is a source of personal pride and accomplishment. Over the past four decades, author John B. Marek has variously and intermittently fallen into both camps. In *Ben and the Art of Lawnmower Maintenance*, he weaves humorous personal anecdotes with fascinating historical facts, and recounts his father's homespun wisdom alongside insight gained from his own suburban homesteading experiences.

Age and Guile Nov 13 2019 The political humorist shares his transformation from dirty hippie to conservative middle-aged grouch: “An incorrigible comic gift” (The New York Times Book Review). The #1 New York Times–bestselling author of *Give War a Chance* was at one time a raving pinko, with scars on his formerly bleeding heart to prove it. In *Age and Guile: Beat Youth, Innocence, and a Bad Haircut*, P. J. O’Rourke chronicles the remarkable trajectory that took him from the lighthearted fun of the revolutionary barricades to the serious business of the nineteenth hole. How did the O’Rourke of 1970, who summarized the world of “grown-ups” as “materialism, sexual hang-ups, the Republican party, uncomfortable clothes, engagement rings, car accidents, Pat Boone, competition, patriotism, cheating, lying, ranch houses, and TV” come to be in favor of all of those things? What caused his metamorphosis from a beatnik-hippie type comfortable sleeping on dirty mattresses in pot-addled communes during his days as a writer for assorted “underground” papers? Here, O’Rourke shows how his socialist idealism and avant-garde aesthetic tendencies were cured, and how he acquired a healthy and commendable interest in national defense, balanced budgets, Porsches, and Cohiba cigars. From a former editor-in-chief of *National Lampoon* and frequent NPR guest, this hilarious essay collection shows that there’s hope for all those suffering from acute bohemianism.
