Most scientists and researchers aren't prepared to talk to the press or to policymakers—or to deal with backlash. Many researchers have the horror stories to prove it. What's clear, according to Nancy Baron, is that scientists, journalists and public policymakers come from different cultures. They follow different sets of rules, pursue different goals, and speak their own language. To effectively reach journalists and public officials, scientists need to learn new skills and rules of engagement. No matter what your

specialty, the keys to success are clear thinking, knowing what you want to say, understanding your audience, and using everyday language to get your main points across. In this practical and entertaining guide to communicating science, Baron explains how to engage your audience and explain why a particular finding matters. She explores how to ace your interview, promote a paper, enter the political fray, and use new media to connect with your audience. The book includes advice from journalists, decision makers, new media experts, bloggers and some of the thousands of scientists who have participated in her communication workshops. Many of the researchers she has worked with have gone on to become well-known spokespeople for science-related issues. Baron and her protégés describe the risks and rewards of “speaking up,” how to deal with criticism, and the link between communications and leadership. The final chapter, ‘Leading the Way’ offers guidance to scientists who want to become agents of change and make your science matter. Whether you are an absolute beginner or a seasoned veteran looking to hone your skills, *Escape From the Ivory Tower* can help make your science understood, appreciated and perhaps acted upon. *Tales of Xillia* follows Jude Mathis, a clever medical student attending school in the capital city, and Milla Maxwell, a mysterious woman accompanied by four unseen beings. We all think we'll be the kind of Christian who follows the straight and narrow, ending our days with the relief of knowing we were ultimately a good and faithful servant. So why do so many leave that road? What enables some to survive as Christians when so many others have faltered? With *A Christian Survival Guide*, Ed Cyzewski steps up to be your trail guide and provide some possible answers. He addresses some of the biggest, toughest questions in Christianity, including: - Disturbing Bible stories - Hell and what it means - Does the Bible have to be "true"? - The question of evil- Money and the church- Evangelizing when no one wants to listen Candid and wry, Cyzewski deals with the tension of hard questions without resorting to empty answers, clichés, relativism, or the smug certainty that can so often drive seekers and strugglers further away. This popular blogger also has a knack of making long-ago biblical figures absolutely recognizable in today's issues. This survival guide is not meant to be a "one size fits all" handbook. It is a first step to confronting the big issues and challenges of a life of faith--even the ones that Christians fear most. Cyzewski writes for those who both care and question deeply, and offers survival tips to help readers move from living on the edge to a place of health and life. *The POW How To Escape Handbook* covers everything you need to know about making a successful return to friendly territory. This true story of a revolt at a Nazi death camp, newly updated, is “a memorable and moving saga, full of anger and anguish, a reminder never to forget” (San Francisco Chronicle). On October 14, 1943, six hundred Jews imprisoned in Sobibor, a secret Nazi death camp in eastern Poland, revolted. They killed a dozen SS officers and guards, trampled the barbed wire fences, and raced across an open field filled with anti-tank mines. Against all odds, more than three hundred made it safely into the woods. Fifty of those men and women managed to survive the rest of the war. In this edition of *Escape from Sobibor*, fully updated in 2012, Richard Rashke tells their stories, based on his interviews with eighteen of the survivors. It vividly describes the biggest prisoner escape of World War II. A story of unimaginable cruelty. A story of courage and a fierce desire to live and to tell the world what truly went on behind those barbed wire fences. *UNOFFICIAL GUIDE* Advanced Tips & Strategy Guide. Have you reached that point in your job where you're thinking 'enough is enough'?

In this book, Christian Rodwell, the Founder of Escape The Rat Race, shows that there is a proven process anyone who is currently employed but looking to start their own business can follow: 'The choices for someone wishing to exit a corporate 9-5 job and start a new business are numerous and this can easily lead to overwhelm, confusion...and over-analysing the options for so long that you end up taking no action at all. Finding enough time to fit your new business around your full time job and family commitments will also be a challenge, which is why I've dedicated an entire chapter to show you ways to overcome this.' Not everyone who wishes to quit the rat race and start a business knows exactly what business would be best suited to them initially. This book will help you to get to know yourself better, identifying your motives for wanting to sack your boss and answering the question, 'what would I would love to do each day if money were no object?'. Christian Rodwell has been through all of these

challenges himself, and has worked with over 1000 other ‘#escapees’ who are on the same journey. Christian illustrates within this book his process for helping such individuals map out their very own ‘9-5 escape plan’ - ‘The Five Step Freedom Formula™’. ‘I’ll guide you through the steps you need to take before you identify what your winning strategy is for starting a business you love. At the end of this book, you’ll have all of the answers ready to complete your very own 90 Day Escape Plan, a specific and personalised personal development plan which I have put together for you.’ It can be downloaded for free, by visiting: www.fivestepfreedomformula.com

Does this reflect how you feel right now about your current work/life balance? You feel trapped in a cycle of getting up to go to work each day, trading your time for money You lack fulfilment doing work you’re not passionate about in order to make other people more successful You’re frustrated because you know that you are capable of achieving greatness, but feel as if your current situation is holding you back You’ve been struggling to get ahead financially and break free of bad debt You’re fed up with standing on busy platforms wrestling for space with the rest of the herd every morning You’re fed up with the internal company politics which you have to endure every day You feel limited by your earning potential and question if you’re ever going to be in a position where you feel truly wealthy You never have any spare time to yourself to do the things you really want to or spend enough time with the people that mean the most to you You’re fed up with having to ask permission from somebody else to allow you time off to do what’s important to you You want to explore the world and be able to generate an income without being tied to any one specific location You know that there is a better quality of life waiting for you Did you answer ‘yes’ to any of the above? ‘If escaping the rat race is something you want to do, then take heart. This is something I have done for myself and I work with people every week who are in the process of doing the same.’ Based around a proven five-step formula, the author guides readers through every step of gaining true clarity on their life goals, focusing their attention on achieving them - and making that bold transition from frustrated employee to unstoppable entrepreneur. ‘They’ll face everything from their deepest fears and hesitations, to a true and frank appraisal of their finances - all intended to cut out fluff so they can crack on with productively taking action on building that business they’ve always dreamed of. The 90-day “escape plan” I share is unlike anything they’ve seen before, but I can almost guarantee it will change their life’.
