Messerschmitt Bf 109 A-D series May 20 2020 From the nascent days of the Spanish Civil War to the desperate, final defence of the stricken Reich, the Messerschmitt Bf 109 was the Luftwaffe's signature fighter.

From the very beginning of its combat career it came to symbolize what could be achieved with a modern monoplane fighter aircraft, instilling fear and respect into Allied pilots wherever it was encountered. 35,000 of the ubiquitous Messerschmitts were eventually built, making it the most-produced fighter in history. This is the first Air Vanguard volume to cover the Bf 109, detailing models A-D. Featuring stunning aerial photos the title explores in depth the technical characteristics and combat performance of the early Bf 109s, including their combat debut in the Spanish Civil War, their employment in the invasion of Poland and showing how the type became one of the most famous names in aviation history.

Intermodal Freight Transport Dec 15 2019 This book provides an introduction to the whole concept of intermodal freight transport, the means of delivering goods using two or more transport modes, recounting both European experience and UK developments and reporting on the extensive political influences on this form of transport. This is placed into context with reference to developments in North America and Asia. Detailed explanations are given of the road and rail vehicles, the loading units and the transfer equipment used in such operations. In particular, the role of the Channel Tunnel in the development of long-haul combined transport operations between the UK and Europe is considered.
