Can these problems be overcome? These are some of the questions asked in this animal based curriculum which is part of the RUFF Program, Reservations Unwanted Four-Footed Friends. Students examine different social issues and asked what they could do. Responsibility is discussed as well as health issues and diseases that can be spread from unhealthy dogs and cats. Tails Are Not for Pulling May 11 2022 Pets may not have words, but they can communicate. Paying attention to an animal's cues—a joyful bark, a scary growl, a swishing tail—can help a child understand what the animal is “saying” and what an appropriate response might be. That's part of what this book is about. But mostly it's about showing children how to love pets gently—because pets are for loving, after all. Kids learn that teasing isn't nice, that they can choose to be kind to animals, and that if you want to touch someone else's pet, there's one important rule you should

know: Ask the owner first! A special section for adults includes ideas for teaching kindness to animals, activities, and discussion starters.

Each child in this entertaining and playful story learns that they have a primary love language that when "spoken" by others, makes them feel loved. Readers, especially children ages 5-8, are sure to recognize their own love language as the story develops, and at the end of the book is a fun quiz that will help parents and children identify their own love language. The cast of child characters in this whimsical story include: Penny, Peyton's twin sister, who receives love best when others spend quality time with her. Mr. Chapman introduces Penny to Horace, a Ragdoll Cat who just wants to be with Penny. Jayla, one of Penny's close friends, is always saying nice things about people. Her love language is words of affirmation. Jayla's perfect pet pal is Pamela, an African Grey Parrot, who repeats the nice things Jayla says about others. Kevin, one of Peyton's close friends, enjoys giving things to people. So does his special pet Chipo, a Capuchin Monkey! Sofia loves to pet the animals, and to show her love for others with special hugs. Physical touch is Sofia's love language. Snuggles

The Ultimate Pet Health Guide Mar 09 2022 As a holistic

veterinarian and scientist, Dr. Gary Richter helps dog and cat owners to navigate the thicket of treatment options and separate the fact from the fiction. He wants us to use what actually works, not just what Western science or alternative medicine say "should" work. This multifaceted approach to health is known as integrative medicine. Dr. Richter examines traditional medicine from many cultures alongside modern medical techniques, describing the best of complementary care and the best of conventional veterinary medicine. Every treatment he recommends has the backing of scientific research or years of successful outcomes in his clinical practice. After explaining the treatment, he offers specific recommendations for an integrative approach to common diseases, including allergies, skin conditions, diabetes, heart disease, and cancer. A holistic approach to health includes nutrition, as it sets up the foundation for your pet's health. Dr. Richter cuts through the hype in the pet-food world and explains how to choose the best commercial foods and supplements, and even includes both raw and cooked dog- and cat-food recipes for general diet as well as to treat specific needs. He also explains how we can use the right foods and supplements to "hack" the body's processes, including the immune system.

May I Pet Your Dog? Jan 07 2022 Children encounter dogs wherever they go: in the park, on the sidewalk, at their friends' homes. Sometimes it's love at first sight, on both sides—but not always. The right way for a child to approach a dog to ensure that the first connection is a complete success begins with this question to the owner: "May I pet your dog?" Using Harry the dachshund as a gentle guide, Stephanie Calmenson addresses this valuable yet overlooked topic with care and precision, and Jan Ormerod's warm illustrations portray a wide variety of breeds and personalities and depict situations that are realistic but never scary. Unique and

straightforward, this is the essential guide to bringing children and dogs together—for kids and parents alike.

My Pet Wants a Pet Jul 01 2021 A charming picture book that cleverly captures a universal wish—to love and care for something—and shows that you're never too little to share in that dream, by New York Times-bestselling author Elise Broach. Once there was a boy who wanted something to take care of. Something of his very own. He begged his mother for a puppy. Until she said YES! The boy loved his puppy. He fed him and played with him and cuddled him. But soon, the dog wanted something to take care of—something of his very own. So the dog gets a pet cat; then the cat gets a pet bird; the bird gets a pet worm; the worm gets a pet flea . . . and on and on it goes as utter chaos ensues. Christy Ottaviano Books

Pet Nation May 19 2020 Now in paperback and with an update about pets during COVID. In the last 20 years pets have gone from the backyard to sleeping on our beds, then showing up in every corner of America. Pet Nation tells the story of this seismic shift and the economic, media, legal, political, and social dramas springing from this cultural transformation. Since 1998 the pet population in the U.S. has almost doubled -- about two-thirds of the country now owns a pet. No longer left to wander the neighborhood, dogs and cats eat special food, get individualized medical attention, and even fly in the cabin. As founder of the Animal Policy Group, Mark Cushing provides an inside look at the rise of Pet Nation, tracking the myriad ways pets are acquired (a "Canine Freedom Train" runs south to north), reporting on pet rights legislation (and the unseen problems that come with elevating their status), pet healthcare (revealing the truth and myths about large scale breeders), and discovering that despite what many organizations would have us believe, there is a shortage of dogs. Insightful, surprising, and full of great stories, Pet Nation opens our eyes to the big changes

happening in front of us right now. It shows us not only what our love of animals says about pets, it shows us what it says about ourselves.

The Great Cat and Dog Massacre Dec 14 2019 In 1939, 400,000 cats and dogs were massacred in Britain, their corpses heaped up outside veterinarians offices. Fear of the imminent German blitz led the government to urge pet owners to spare their animal companions so that they would not suffer in the bombing raids. Hilda Kean's gripping narrative of this little-known event includes tales of smuggling pets into bomb shelters, trading bits of cat food on the black market, and preemptively killing thousands of pets at the start of the war to save the food supplies in England. Kean is able to show vividly how pets were an important part of British wartime experience. She pays close attention to animals, both symbolic and actual, arguing that after the pet massacre, human-animal bonds became stronger and closer. In the process of telling this history, Kean necessarily complicates the picture of World War II as the good war fought by a nation of good, animal-loving people. Her close use of primary materials (diaries, personal sources, contemporary newspapers, collective public reports on daily life, etc.) gives palpable reality to the animals and their fate at this time. This forgotten aspect of Britain's history makes us rethink accepted accounts of the War and shows the ways in which animal and human histories are inextricably linked. We are also constrained to rethink our assumptions about ourselves and the animals with whom we share our homes."
