*Winner of International Automotive Media Gold Award 2010 For all his fame as one of Hollywood's great actors, a world-class humanitarian, and the proprietor of a natural food empire, the late Paul Newman had another intriguing facet that was less known and perhaps closer to his heart than all the rest of his well-chronicled life. He was an avid, successful and well respected car racer and team owner. This book tells that story--from Newman's racing career, begun in earnest at an age when many race car drivers contemplate retirement; to the partnership he formed in 1983 with Chicago racing entrepreneur and team owner Carl Haas; to the impressive stable of automobiles he owned, from the Porsches and Ferraris to quirkier modified VWs and Volvos. This is the tale of a life full of passion and skill, of someone who entered the 24 Hours of Daytona at the age of 70 and made his last professional race outing at 82; whose roster of drivers for Newman/Hass reads as a who's who of open wheel racing; and whose interest in cars extended from the likely suspects to old trucks and new hybrids. And then there's the charming pal who, when the incorrigible prankster Robert Redford had a miserably wrecked Ferrari dropped at his front door, returned the favor by having the car, crushed into a cube, delivered to Redford's living room. The anecdotes, the races, the cars--all are here, adding up to what for many would be a full life, but for Paul Newman was simply another side of a man of talent, conviction, and enduring spirit. The marque synonymous with the four Walklett brothers then grew from its humble roots to become a serious force in motor racing and a volume road car maker. Ginetta - Road and Track Cars traces the story of a marque born out of sheer enthusiasm for cars and racing. With over forty different models designed and built between 1958 and 2005 by Ginetta, this book examines every element of the design innovation, shrewd business management and model line-up that made Ginetta unique among its competitors, and includes the full development history*

and technical specifications of each major model. This comprehensive history of the Ginetta company from 1958 through to takeover in 2005 will be of great interest to all owners and enthusiasts of Ginetta cars and motoring history in general. Superbly illustrated with 209 colour and 87 black & white photographs. Product Concept Design has been written by a collection of researchers and practising designers from leading companies such as Nokia and Volvo. The book explains the process of conceptual design of new manufactured products and shows how the principles involved are employed in real examples of consumer products from some of the world's most important corporations detailed by the designers themselves. The book will be bought by designers and managers in industry, as well as lecturers in design and design engineering and their students. Los Angeles magazine is a regional magazine of national stature. Our combination of award-winning feature writing, investigative reporting, service journalism, and design covers the people, lifestyle, culture, entertainment, fashion, art and architecture, and news that define Southern California. Started in the spring of 1961, Los Angeles magazine has been addressing the needs and interests of our region for 48 years. The magazine continues to be the definitive resource for an affluent population that is intensely interested in a lifestyle that is uniquely Southern Californian. This Book contains stowage factors from the following Categories (a) General Cargoes b) Cooling Cargoes c) Bulk Cargoes d) Ore e) Sweet Oils f) RoRo g) Containersizes h) IMDG Code Segregation i) German/English Dictionary with final Categories In 1956, a prototype of a new passenger car from Volvo was presented. It became known as the Amazon in Sweden and the 121 and 122S in export markets, the latter denoting a more sporty derivative. However, despite its substantial appearance, all Amazons were surprisingly fleet of foot - this was one of the most sporty European saloons of the 1960s. With its elegant, timeless styling the Amazon broke new ground for Volvo - and for passenger cars as a whole. This new book covers the complete story of the Volvo Amazon, from 1956 onwards, including full production histories, comprehensive specification details, and over 250 photographs. The book covers the history of Volvo before and after the Amazon, and development and production of all Amazon derivatives from 1956-1970, including the 121, 122S, 123GT and all of the estate editions. There are biographies of key Volvo personnel, including the company's first designer, Jan Wilsgaard. Also included is the Amazon in motorsport, plus driver biographies: Tom Trana, Sylvia Osterberg and Carl-Magnus Skogh. There is a full buying guide along with tips on tuning and modifying, including rally preparation, and an insight into what the press thought of each Amazon derivative, with pages also devoted to how the car was marketed in period. An ideal resource for owners, or anyone with an interest in the evolution of these classic cars, which is superbly illustrated with 250 colour photographs. America Dreaming Longshots Volume 2 ...
