Following the disastrous Java Sea campaign, the Allies went on the offensive in the Pacific in a desperate attempt to halt the Japanese forces that were rampaging across the region. With the conquest of Australia a very real possibility, the stakes were high. Their target: the Japanese-held Soloman Islands, in particular the southern island of Guadalcanal. Hamstrung by arcane pre-war thinking and a bureaucratic mind-set, the US Navy had to adapt on the fly in order to compete with the mighty Imperial Japanese Navy, whose ingenuity and creativity thus far had fostered the creation of its Pacific empire. Starting with the amphibious assault on Savo Island, the campaign turned into an attritional struggle where the evenly matched foes sought to grind out a victory.

Following on from his hugely successful book *Rising Sun, Falling Skies*, Jeffrey R. Cox tells the gripping story of the first Allied offensive of the Pacific War, as they sought to prevent Japan from cutting off Australia and regaining dominance in the Pacific. This

book is about Raymond Federman and his incredible textual obsession with Samuel Beckett. Federman was a scholar of Beckett, postmodern theorist, a self-translator and avant-garde novelist. Born in Paris in 1928, all of his immediate family perished in the Holocaust. Federman escaped thanks to his mother, who hid him in a closet. After the war, he migrated to America and devoted his life to scholarship and creative writing. In both, he devoted his life to Beckett. Federman's creative and theoretical writings contaminate and pervert each other just as, in his novels, French contaminates English and fiction perverts reality. His work is centered on the details of his survival, enacting a perpetual return to the closet, as previous studies have demonstrated. By examining Beckettian (and by extension Joycean) intertextuality in the novels of Raymond Federman, this study traces the contours of a second closet. David Long traces the cause of the 1975 Australian constitutional crisis to the influence of English legal positivism which was adopted by the High Court in 1920 when it abolished the federal scheme and therewith the sovereign States going against the fundamental premise of a constitution. This book examines early modern social contract theories within European representations of the Americas in the 16th and 17th century. Despite addressing the Americas only marginally, social contract theories transformed American social imaginaries prevalent at the time into Aboriginality, allowing for the emergence of the idea of civilization and the possibility for diverse discourses of Aboriginalism leading to excluding and discriminatory forms of subjectivity, citizenship, and politics. What appears then is a form of Aboriginalism pitting the American/Aboriginal other against the nascent idea of civilization. The legacy of this political construction of difference is essential to contemporary politics in settler societies. The author shows the intellectual processes behind this assignation and its role in modern political theory, still bearing consequences today. The way one conceives of citizenship and sovereignty underlies some of the difficulties settler societies have in accommodating Indigenous claims for recognition and self-government. Tolstoy's most famous novella is an intense and moving examination of death and the possibilities of redemption, here in a powerful translation by the award-winning Richard Pevear and Larissa Volokhonsky. Ivan Ilyich is a middle-aged man who has spent his life focused on his career as a bureaucrat and emotionally detached from his wife and children. After an accident he finds himself on the brink of an untimely death, which he sees as a terrible injustice. Face to face with his mortality, Ivan begins to question everything he has believed about the meaning of life. The Death of Ivan Ilyich is a masterpiece of psychological realism and philosophical profundity that has inspired generations of readers. In this fun-filled picture book of wacky surprises everything goes wild - from Leo, the Blue Elephant who enjoys taking vacations from his zoo to the laugh-out loud funny antics that pop out of Jack's imagination! And in the end Jack decides it is better to be a responsible kid and take Leo back to the zoo where he belongs. With witty, wonderful illustrations, Jack and Leo, The Blue Elephant is a hands up winner! Ages 3 - 8. Leo is a sea turtle and sea turtles are supposed to swim. He's sure he could if one of his flippers wasn't shorter than the others. He'll try anything to learn but none of his crazy fixes work. Then a starfish helps him see that he needs to focus on his strengths not his weaknesses. When a giant crab threatens his cousin Elliott, Leo discovers that caring for others is the only fix he needs. This book is an Augustinian interrogation of contemporary Christian accounts of empire, just war, and terrorism. Though Augustine's voice has guided much of the Christian discourse in these conjoined arenas, it has not shielded his work from being misappropriated to serve ends that are inimical to his own. The US "war on terror" is the most recent and egregious example of violence that many theologians have unjustly baptized as "Augustinian." By reading Augustine pastorally rather than merely polemically, this work offers a counter-narrative and an alternative praxis for the American Christian trying to reconcile her baptism with her citizenship. This book contains the first two episodes of the series "From Erik's diary (Lorelai and I)." Erik's diary gathers the many extravagant, exciting, unpredictable, absurd and amusing adventures of its complier and his blonde girlfriend Lorelai. Two stories in which suspense goes hand in hand with humor and everything tends toward the absurd. Also available on the Kindle Store. The book provides an insightful study of the Jewish theologian Martin Buber, and combines a review of the unconventional Zionism he proposed with a sensitivity to myth as the basis of an inclusive civil religion. The multifaceted nature of this work examines Buber's embrace of myth, and his application of myth to both biblical studies and political theory. It pays special attention to the way Buber's thinking about Zion applied to religious ethical issues such as ecology, education, ritual, and, as a continuing theme throughout the book, to the conflict between those Buber called Jews and Arabs in the land of Palestine. Ariel (Aries) Ariel Ramson has everything it takes to compete in the world of NASCAR. Courage, ambition, an adventurous spirit, not afraid to take chances, except with her heart. Jesus is calling his church to be a multiethnic and missional people who listen and learn from the many voices of world Christianity. Graham Joseph Hill issues a moving call for churches to be missional by being conformed to the image of Jesus Christ. Hill does this by exploring the thinking of twenty-five Asian, African, Latin American, Indigenous, African American, diaspora, Caribbean, Oceanian, Eastern European, and Middle Eastern pastors and theologians. These are as diverse as Melba Padilla Maggay, Emmanuel Katongole, Lamin Sanneh, Oscar Muriu, Ruth Padilla DeBorst, Pope Francis, Richard Twiss, Lisa Sharon Harper, Willie James Jennings, Ada Maria Isasi-Diaz, Soong-Chan Rah, and Mitri Raheb. These voices show us the future of missional churches in world Christianity. When churches are conformed to Christ they make disciples, heal a broken world, and witness to Jesus and his gospel. Jesus forms us in his image and moves us to be a people of shalom, humility, character, justice, peace, wisdom, prayer, beauty, and witness. The church has had a Reformation but now it needs a Conformation. Hill explores biblical themes and the voices of world Christianity to show that a missional church is conformed to the image of the incarnate, crucified, resurrected, and glorified Christ. Conformity to Christ is the heart of missional ecclesiology and discipleship. Written by an experienced professional who has led Navy Intelligence and CIA analysts in high-stakes situations, *Leading Intelligence Analysis: Lessons from the CIA's Analytic Front Lines* introduces the fundamental managerial skills and practical tools needed to lead analysis projects conducted by individuals and teams. Author Bruce Pease provides insights into key questions such as What kind of environment draws out a team's best work? What brings out their creativity? When does pressure bring out their best insights? When does pressure sap their intellectual energy? and What kind of team builds new knowledge rather than engaging in group-think? This book draws on the author's perspective from decades of leading intelligence analysts on critical issues, including war in the Middle East, terrorism after 9/11, and nuclear threats. Do you ever feel like you're wandering in a wilderness alone? Are you searching for the same freedom the children of Israel sought, only to find oppression at every turn? Are you looking for a life filled with promise, only to be repeatedly disappointed? You are not alone. We are all on a journey, from slavery to sin to the ultimate Promised Land in Heaven, where we will be free. Everything in between is a wilderness experience. Moses expounded on freedom in the wilderness. He

explained exactly where to find it and how to get there. He clearly spoke to the Jew and the foreigner. The question is: Does He speak to the Christian as well? In her book *Finding Freedom*, Dr. Stundahl will wander through the wilderness of Deuteronomy and explore the Hebraic roots of Christianity. *Finding Freedom* reveals the concepts of the Torah, assembled in the same format in which they were studied by the Jewish communities since the Babylonian exile. These concepts include humility, idolatry, evil speech, teaching, learning, remembering and listening. The analysis of each portion of the Torah considers its applicability to the life of a Christian. As the history of Christianity and the Jewish elements of the Gospel are discovered, the shadows of Jesus Christ are revealed. Wherever you are in the wilderness of your life, you too can find the freedom intended just for you! Experience the reading, the writing, and the dance of the Torah.

From popular Pacific Theatre expert Jeffrey R. Cox comes this insightful new history of the critical Guadalcanal and Solomons campaign at the height of World War II. His previous book, *Morning Star, Rising Sun*, had found the US Navy at its absolute nadir and the fate of the *Enterprise*, the last operational US aircraft carrier at this point in the war, unknown. This new volume completes the history of this crucial campaign, combining detailed research with a novelist's flair for the dramatic to reveal exactly how, despite missteps and misfortunes, the tide of war finally turned. By the end of February 1944, thanks to hard-fought and costly American victories in the first and second naval battles of Guadalcanal, the battle of Empress Augusta Bay, and the battle of Cape St George, the Japanese would no longer hold the materiel or skilled manpower advantage. From this point on, although the war was still a long way from being won, the American star was unquestionably on the ascendant, slowly, but surely, edging Japanese imperialism towards its sunset. Jeffrey Cox's analysis and attention to detail of even the smallest events are second to none. But what truly sets this book apart is how he combines this microscopic attention to detail, often unearthing new facts along the way, with an engaging style that transports the reader to the heart of the story, bringing the events on the deep blue of the Pacific vividly to life.

We live in an era of health hype and nutrition propaganda, and we're suffering for it. Decades of avoiding egg yolks, choosing margarine over butter, and replacing the real foods of our ancestors with low-fat, processed, packaged substitutes have left us with an obesity epidemic, ever-rising rates of chronic disease, and, above all, total confusion about what to eat and why. This is a tragedy of misinformation, food industry shenanigans, and cheap calories disguised as health food. It turns out that everything we've been told about how to eat is wrong. Fat and cholesterol are harmful to your health? Nope—they are crucial to your health. "Whole grains" are health food? Not even close. Counting calories is the way to lose weight? Not gonna work—nutrients are what matter. Nutrition can come from a box, bag, or capsule? Don't count on it! In *Eat the Yolks*, Liz Wolfe debunks all these myths and more, revealing what's behind the lies and bringing the truth about fat, cholesterol, protein, and

carbs to light. You'll be amazed at the tall tales we've been told in the name of "healthy eating." With wit and grace, Wolfe makes a compelling argument for a diet based on Paleo foods. She takes us back to the foods of our ancestors, combining the lessons of history with those of modern science to uncover why real, whole food—the kind humans ate for thousands of years before modern nutrition dogma led us astray—holds the key to amazing health and happy taste buds. In *Eat the Yolks*, Liz Wolfe doesn't just make a case for eating the whole egg. She uncovers the shocking lies we've been told about fat, cholesterol, protein, carbs, and calories and brings us the truth about which foods are healthy—and which foods are really harming us. You'll learn truths like: - fat and cholesterol are crucial, not harmful . . . and why - "whole grains" are processed foods . . . and what to eat instead - counting calories is a waste of energy . . . and what we actually should be tracking - all animal products are not created equal . . . and which ones we truly need - nutrition doesn't come in a box, bag, or capsule . . . and why there's no substitute for real food! Deception and truth-telling weave through the fabric of nearly all human interactions and every communication context. The *Palgrave Handbook of Deceptive Communication* unravels the topic of lying and deception in human communication, offering an interdisciplinary and comprehensive examination of the field, presenting original research, and offering direction for future investigation and application. Highly prominent and emerging deception scholars from around the world investigate the myriad forms of deceptive behavior, cross-cultural perspectives on deceit, moral dimensions of deceptive communication, theoretical approaches to the study of deception, and strategies for detecting and deterring deceit. Truth-telling, lies, and the many grey areas in-between are explored in the contexts of identity formation, interpersonal relationships, groups and organizations, social and mass media, marketing, advertising, law enforcement interrogations, court, politics, and propaganda. This handbook is designed for advanced undergraduate and graduate students, academics, researchers, practitioners, and anyone interested in the pervasive nature of truth, deception, and ethics in the modern world. How does reading fiction affect young

people? How can they transfer fictional experience into real life? Why do they care about fictional characters? How does fiction enhance young people's sense of self-hood?

Supported by cognitive psychology and brain research, this ground-breaking book is the first study of young readers' cognitive and emotional engagement with fiction. It explores how fiction stimulates perception, attention, imagination and other cognitive activity, and opens radically new ways of thinking about literature for young readers. Examining a wide range of texts for a young audience, from picturebooks to young adult novels, the combination of cognitive criticism and children's literature theory also offers significant insights for literary studies beyond the scope of children's fiction. An important milestone in cognitive criticism, the book provides convincing evidence that reading fiction is indispensable for young people's intellectual, emotional and social maturation.

From Tin Pan Alley to the Beatles to Beyoncé, "Mr. Bradley skillfully breaks down a

century of standards and pop songs into their elements to reveal the interaction of craft and art in composition and performance." (The Wall Street Journal) Encompassing a century of recorded music, this pathbreaking book reveals the poetic artistry of popular songs. Pop songs are music first. They also comprise the most widely disseminated poetic expression of our time. Adam Bradley traces the song lyric across musical genres from early twentieth-century Delta blues to mid-century rock 'n' roll to today's hits. George and Ira Gershwin's "Fascinating Rhythm." The Rolling Stones' "(I Can't Get No) Satisfaction." Rihanna's "Diamonds." These songs are united in their exacting attention to the craft of language and sound. Bradley shows that pop music is a poetry that must be heard more than read, uncovering the rhythms, rhymes, and metaphors expressed in the singing voice. At once a work of musical interpretation, cultural analysis, literary criticism, and personal storytelling, this book illustrates how words and music come together to produce compelling poetry, often where we least expect it. A fascinating biography and in-depth look at the work of bestselling writer and psychologist Dr. Jordan Peterson, by award-winning author Jim Proser. Who is psychologist, professor, bestselling author, and YouTube personality Dr. Peterson? What does he believe in? Who are his followers? And why is he so controversial? These are among the many questions raised in this compelling, exhaustively researched account of his life—from Peterson's early days as a religious-school student in small-town Canada to his tenure at Harvard to his headline-making persona of the present day. In *Savage Messiah*, we meet an adolescent Peterson who, scoffing at the "fairy tales" being taught in his confirmation class, asks his minister how it's possible to believe the Bible in light of modern scientific theory. Unsatisfied with the answer he's been given, Peterson goes on to challenge other authority figures who stood in his way as he dared to define the world in his own terms. This won Peterson many enemies and more admirers than he could have dreamed of, particularly during the digital era, when his nontraditional views could be widely shared and critically discussed. Still, a fall from grace was never far behind. Peterson had always preached the importance of free speech, which he believed was essential to finding life-saving personal meaning in our frequently nihilistic world. But when he dismissed Canadian parliament Bill C-16, one that compelled the use of newly-invented pronouns to address new gender identities, Peterson found himself facing a whole new world. Students targeted him as a gender bigot. Conservatives called him their hero. Soon Peterson was fixed firmly at the center of the culture wars—and there was no turning back. With exclusive interviews of Dr. Peterson, as well as conversations with his family, friends, and associates, this book reveals the heart and mind, teachings and practices, of one of the most provocative voices of our time. Can the meaning of religious language be separated from its use? In *Religious Language, Meaning, and Use*, Robert Bolger and Robert Coburn address what has become a contentious though often overlooked account of the relationship between religious belief and religious practice. Through philosophical

argumentation and by means of a variety of sermon-like essays on religious topics, this book seeks to return religion to the place in which the meaning and practical impact of its beliefs become inseparable from the life of the believer. Part I begins by considering, through the loose lens of Wittgenstein's philosophical method, how religious language has been misunderstood leading straightway to a variety of challenges and conceptual confusions. Part II presents previously unpublished essays written by Robert C. Coburn who has, for over 50 years, been at the forefront of the study of metaphysics and philosophy of religion. Making a compelling case for a religious practice that avoids trivializing religious belief, this book promises to be a corrective to those who see faith as nothing more than ethics in disguise and to those metaphysicians who see faith as a set of beliefs. The brilliant, mercurial, self-mythologising novelist and journalist Joseph Roth, author of the European 20th century masterpiece *The Radetzky March*, was an observer and chronicler of his times. Born and raised in Galicia on the eastern edge of the Austro-Hungarian Empire, his life's decline mirrored the collapse of civilised Europe: in his last peripatetic years, he was exiled from Germany, his wife driven into an asylum, and he died an alcoholic on the eve of the World War II. With keen insight, rigor and sensitivity, Keiron Pim delivers a visceral portrait of Roth's internal restlessness and search for belonging, from his childhood in the town of Brody to his Vienna years and his unsettled roaming of Europe. Exploring the role of Roth's absent father in his imaginings, and his attitude to his Jewishness, Roth's biography has particular relevance to us now, not only in the growing recognition and revival of his works, but also because his life's trajectory speaks powerfully to us in a time of uncertainty, fear, refugee crises and rising ethno-nationalism. Moral Injury is now recognized as a growing major problem for military men and women. Operant conditioning can overwhelm moral convictions and yet the question of whether "to shoot or not to shoot" often will never have a settled answer. Certain theories and treatment models about MI have been well developed, but too often overlook root issues of religious faith. The authors propose a new model for understanding moral injury and suggest ways to mitigate its virtually inevitable occurrence in pre-combat training, and ways to resolve MI post-trauma with proven spiritual resources. People outside the military, too, among whom the incidence of MI also is a growing threat, will benefit from this analysis. The stories of the injured—their shaping and their telling—are the key, and there are many illuminating stories of moral injury and recovery. Those who suffer MI, their families, and caregivers, including counselors, pastors, and faith communities, will find hope-giving first steps toward the healing of MI in this book. Contemporary dilemmas, whether in business or politics, bear an uncanny resemblance to the predicaments witnessed in the ever-timely epic, the *Mahabharata*. Who else but Bhishma Pitamah then to the rescue of the modern-day manager, politician or bureaucrat! In the epic, Bhishma is the upholder of truth and dharma, his life shaped by the difficult choices he makes. He isn't always infallible, but

even where his decisions are questionable, he serves as a role model. Prof. N. Balasubramanian uses this powerful figure and his selfless values as a guide to make the right choices in *The Bhishma Way*. He discusses the importance of values, dharma, truth, justice and governance in businesses and governments. Analyses of real-life cases—among them, Union Carbide and the Bhopal gas tragedy, James Hardie and asbestos in Australia, and Ok Tedi in Papua New Guinea—complement the mythological stories and insightful anecdotes in this illuminating and thought-provoking book. This serves as an instructive read for anyone striving for a higher moral code in day-to-day decision-making and leadership.

This book looks at what makes a city smart by describing, challenging, and offering democratic alternatives to the view that the answer begins and ends with technology.

Drawing on worldwide case studies documenting the redevelopment of old and the creation of new cities, it provides an essential guide to the future of urban life in a digital world. In prose as beautiful as it is powerful, Rita Gabis follows the trail of her grandfather's collaboration with the Nazis; a trail riddled with secrets, slaughter, mystery, and discovery. Rita Gabis comes from a family of Eastern European Jews and Lithuanian Catholics. She was close to her Catholic grandfather as a child and knew one version of his past: prior to immigration he had fought the Russians, whose brutal occupation of Lithuania destroyed thousands of lives before Hitler's army swept in. Five years ago, Gabis discovered an unthinkable dimension to her family story: from 1941 to 1943, her grandfather had been Chief of Security Police under the Gestapo in the Lithuanian town of Svencionys, near the killing field of Poligon, where 8,000 Jews were murdered over three days in the fall of 1941. In 1942, the local Polish population was also hunted down.

Gabis felt compelled to find out the complicated truth of who her grandfather was and what he had done. Built around dramatic interviews in four countries, filled with original scholarship, and mesmerizing in its lyricism, *A Guest at the Shooters' Banquet* is a history and family memoir like no other, documenting “the holocaust by bullets” in a remarkable quest as Gabis returns again and again to the country of her grandfather's birth to learn all she can about the man she thought she knew. This book is for young startups and entrepreneurs in the advertising, marketing, and digital services space. It's an A-to-Z guide for young advertising firms, full of advice that ranges from getting funding to how to value the company and sell it to how to hire your first employee. New arts created in the context of new social realities are impacting our traditional ideas about aesthetics. Art, art markets and aesthetics now interact in ways that demand new forms of thought and revision of old. *Cosmopolitan Aesthetics* presents the first thorough account of the challenges facing aesthetics today in the light of globalization, introducing the history that underpins them. This is an ideal starting point for anyone looking to better understand 21st century art and aesthetics. Beginning with globalization and the nature of global art markets today, Daniel Herwitz offers new insight into postcolonial aesthetics, colonial legacies, cultural property, the problems of global communication and aesthetic diversity, and the uneasy connection between aesthetics and politics, before providing a crucial grounding in 18th and 19th century aesthetics, with discussion of the three great modern aestheticians David Hume, Immanuel Kant and G.W.F. Hegel. Our best selling classic tabbed handbook is available in a version that conveniently includes nearly one hundred integrated exercise sets for plenty of practice with the grammar, style, punctuation, and mechanics topics offered in the handbook. The answers to lettered items appear in the back of the book. This book revisits the claim that a key dimension of cultural modernity – understood as a turn to the autonomy of the signs and the erasure of the 'face of man' - arose in the mid-nineteenth century. It presents an alternative to that obsession, focusing instead on the aesthetic appreciation of forms through which connections are realised across place and time. The book is one of few to offer a comparative approach to numerous major writers and artists of this period over diverse countries. Specifically, the comparative approach overcomes the constitutively ambiguous relation between the modern and the Hispanic. The Hispanic is often imagined as at once foundational for and excluded from the modern world. Its reincorporation into the story of the mid-century unsettles the notion of modernity. The book offers instead an experiment in writing, tracing commonalities across place and time, and drawing on mid-century expressions of such likenesses. *Innovation on Tap* is the story of innovation in America told through the eyes of 25 entrepreneurs, from Eli Whitney and his cotton gin to Lin-Manuel Miranda and his Broadway smash, *Hamilton*. The stories illustrate the sweep and impact of innovation. From razor blades, insurance, and baseball to smart cities, online running communities, and cybersecurity, innovators

across three centuries gather in an imaginary barroom to discuss the essential themes of entrepreneurship--Mechanization, Mass Production, Consumerism, Digitization, and Sustainability--while emphasizing and reemphasizing the importance of community to their success.
