*From New York Times bestselling author Linwood Barclay comes an explosive novel set in the peaceful small town of Promise Falls, where secrets can always be buried—but never forgotten... After his wife's death and the collapse of his newspaper, David Harwood has no choice but to uproot his nine-year-old son and move back into his childhood home in Promise Falls, New York. David believes his life is in free fall, and he can't find a way to stop his descent. Then he comes across a family secret of epic proportions. A year after a devastating miscarriage, David's cousin Marla has continued*

to struggle. But when David's mother asks him to check on her, he's horrified to discover that she's been secretly raising a child who is not her own—a baby she claims was a gift from an “angel” left on her porch. When the baby's real mother is found murdered, David can't help wanting to piece together what happened—even if it means proving his own cousin's guilt. But as he uncovers each piece of evidence, David realizes that Marla's mysterious child is just the tip of the iceberg. Other strange things are happening. Animals are found ritually slaughtered. An ominous abandoned Ferris wheel seems to stand as a warning that something dark has infected Promise Falls. And someone has decided that the entire town must pay for the sins of its past...in blood. Kienzle, author of the classic mystery, The Rosary Murders. When Father George Wheatley decided to convert from the Anglican Church to the Roman Catholic, he thought he had painstakingly considered the sacrifices he would have to make. He knew his celebrity status as a beloved Anglican priest, evidenced by his newspaper column and radio show, would be in jeopardy. He understood the strain the change would put on his wife and children and the challenges he would face to be accepted as a married Roman Catholic priest. He even acknowledged that reactionaries in both camps would oppose such a spiritual changeover. But he never dreamed that his decision would breed such waves of ambition, jealousy, and hatred that the ultimate human sacrifice—murder—would be the result. Nor did he appreciate how much of a sacrifice would be*

*asked of him. In his twenty-third appearance, Father Robert Koesler, a Detroit parish priest with a penchant for being involved in murder, accompanies his friend Father Wheatley through his tortured path to conversion and helps him seek resolution of a crime. With his compassion, knowledge of human nature, and experience, Father Koesler is able to not only resolve a murder mystery, but also to give true understanding to the concept of sacrifice. many more... One is his mother. Another is a friend. Still another is a stranger. They are among the seven people who witness Jesus' death on the cross. Their remarkable, life-altering stories are told here, in *Being the Body of Christ: What the People of the Passion Teach us about Jesus Today*. Drawing from Scripture and tradition, Marci Alborghetti creates tender, profoundly personal depictions of each encounter; we feel Mary's anguish as she holds her son's cold, tattered body and recalls rocking her newborn; we stand with John at the foot of the cross, somewhere between hope and despair. We feel the Centurion's bewilderment, Magdalene's grief, and Nicodemus' wrenching regret. "These are the people who can become our guides as we seek to commit ourselves physically, emotionally, and spiritually to Jesus and his teaching," says Alborghetti. Each chapter offers questions and topics for personal reflection or group discussion, making this an inspiring and cherished companion for all who seek deeper participation in the body of Christ.

The Oxford Handbook of Egyptology offers a comprehensive survey of the entire study of ancient Egypt from*

*prehistory through to the end of the Roman period. It seeks to place Egyptology within its theoretical, methodological, and historical contexts, indicating how the subject has evolved and discussing its distinctive contemporary problems, issues, and potential. Transcending conventional boundaries between archaeological and ancient textual analysis, the volume brings together 63 chapters that range widely across archaeological, philological, and cultural sub-disciplines, highlighting the extent to which Egyptology as a subject has diversified and stressing the need for it to seek multidisciplinary methods and broader collaborations if it is to remain contemporary and relevant. Organized into ten parts, it offers a comprehensive synthesis of the various sub-topics and specializations that make up the field as a whole, from the historical and geographical perspectives that have influenced its development and current characteristics, to aspects of museology and conservation, and from materials and technology - as evidenced in domestic architecture and religious and funerary items - to textual and iconographic approaches to Egyptian culture. What do set design, sound effects, and showmanship have to do with winning World War II? Meet the Ghost Army that played a surprising role in helping to deceive — and defeat — the Nazis. In his third book about deception during war, Paul B. Janeczko focuses his lens on World War II and the operations carried out by the Twenty-Third Headquarters Special Troops, aka the Ghost Army. Author Leonard Swidler himself is one of the American originators of the term triologue (words among three persons), and here he raises it to a new level as he shares the podium with professors Reuven Firestone and Khalid Duran. These three professors, beginning with Firestone and Judaism, present their faith traditions and the challenges as well as possibilities for genuine triologue. Each offers invaluable insights into the ways they share Hebraic roots and Abrahamic traditions and how their beliefs and practices have evolved through the centuries up to and including the present. Throughout the text, readers are encouraged to pause for reflection and/or discussion of the key points presented by the authors. This is a fascinating, enlightening, and highly recommended introduction to these three great faith traditions and how they evolved and are practiced today.
