A worthy winner of the UKLA Teacher's Book Award' - TES magazine `The book clearly describes many creative ways to engage children in writing. A number of different approaches are suggested, with activities that amongst others include the use of talk, picture books and other visual stimuli. It explains how these can be used effectively and easily in the classroom so that teachers, whatever their level of experience, can feel confident to use them. The activities are manageable with ideas to suit children of all abilities across the primary age range' - Liz Sharp, Literacy Consultant, Milton Keynes LEA Based on her experiences as a class teacher, Jacqueline Harrett's book is packed with exciting, creative ideas for teaching writing in the classroom. With activities for Key Stages 1 and 2, it shows busy class teachers how children's literacy is relevant across the curriculum. Each chapter uses a different idea to get children writing, and the following are all used as a starting point for lively literacy lessons: - imagination and visualisation - picture books - photographs - paintings - films and TV - comics Primary school teachers, Literacy Co-ordinators, trainee teachers and anyone looking for engaging and imaginative ideas to help them teach writing in their classroom will find this book fits the bill. Developed by top-level physical educators, this third edition will help students gain the knowledge, skills, appreciation, and confidence they need to lead active, healthy lives, regardless of physical and mental abilities or disabilities. Physical Best Activity Guide: Middle and High School Levels has been used with much success across the United States, and for good reason: The text contains 70 easy-to-use instructional activities, ranging from noncompetitive to competitive and from less demanding to more demanding. It also includes activities that allow for maximum time on task. All the instructional activities address the national physical education standards, dance standards, or health standards. This new edition retains the best activities from previous editions and offers new ones from outstanding teachers throughout the United States. You will learn how to adapt the activities for all students, regardless of skill level or disability, and students will learn how to set realistic goals, manage their activity levels, and remain healthy throughout their lives. In addition, this text offers the following features: * A "Combined-Component Training" chapter combines aerobic fitness, muscular strength and endurance, and flexibility into single activities. * A CD-ROM contains a wealth of reproducibles, including charts, posters, signs, station cards, handouts, and worksheets, many of which can be adapted to meet your needs. * A section of Internet resources helps you develop your own special events. Physical Best Activity Guide: Middle and High School Levels, developed by the National Association for Sport and Physical Education, can stand alone or be used in conjunction with Physical Education for Lifelong Fitness: The PhysicalBest Teacher's Guide, Third Edition, and Physical Best Activity Guide: Elementary Level, Third Edition. It can also be used with Fitnessgram®/Activitygram®, an activity assessment and computerized reporting system, and the Fitness forLife resources for middle school and high school. Fitness for Life is a comprehensive program promoting lifetime health-related fitness. A sourcebook of exercises, games, scenarios and role plays, this practical, user-friendly guide provides a complete and valuable resource for research methods tutors, teachers and lecturers. Developed to complement and enhance existing course materials, the 100 ready-to-use activities encourage innovative and engaging classroom practice in seven areas: finding and using sources of information planning a research project conducting research using and analyzing data disseminating results acting ethically developing deeper research skills. Each of the activities is divided into a section on tutor notes and student handouts. Tutor notes contain clear guidance about the purpose, level and type of activity, along with a range of discussion notes that signpost key issues and research insights. Important terms, related activities and further reading suggestions are also included. Not only does the A4 format make the student handouts easy to photocopy, they are also available to download and print directly from the book's companion website for easy

This book contains lots of math worksheets with over 600 problems The process of finding and making the best possible match is not an easy one. On the contrary, from an emotional perspective finding, making, maintaining, and enriching an intimate partnership is one of the most challenging tasks an adult faces. There must be an attraction or a "spark" for a true match to be made. When a couple comes for counseling, they come with the hope that their relationship can be renewed-that they can capture the heat and the emotion that they once had together. The Couple's Match Book: Lighting, Rekindling, or Extinguishing the Flame explores relationship theory and research. Including self-assessment activities to help determine what actions to take to improve relationships, this guild offers information that focuses on understanding and respecting personality differences, role perceptions, communication, and problem-solving. The balance of the book shares personal stories written by couples detailing their own experiences in an effort to help others in improving their intimate relationships. The Couple's Match Book: Lighting, Rekindling, or Extinguishing the Flame can be used as a supplemental text in marriage and family courses, as well as a primary resource in couples counseling and marriage and family therapy. Critical Thinking provides language teachers with a dynamic framework for encouraging critical thinking skills in explicit, systematic ways during their lessons. With the proliferation of fallacious arguments, "fake news," and untrustworthy sources in today's multimedia landscape, critical thinking skills are vital not only in one's native language, but also when engaged in the task of language learning. Written with the language teacher in mind, this book provides a springboard for teaching critical thinking skills in multicultural, multilingual classrooms. Suitable for graduate students, in-training teachers, and language curriculum developers interested in purposeful applications of critical thinking pedagogy for the second-language classroom, this volume presents classroom activities, suggestions for lesson planning, and ideas for researching the impact of critical thinking activities with second-language learners. This book is ideal as an invaluable resource for teacher-directed classroom investigations as well as graduate dissertation projects. Just 15 Minutes A Day: Two months of learning loss occurs during the summer, with the highest losses being in math and spelling. This activity book is designed to prevent summer learning loss in just 15 minutes per day through hands-on activities. Why Summer Bridge: Award-winning Summer Bridge Activities® engage children's creativity and learning potential and keep kids mentally and physically active to prevent summer learning loss and pave the way for a successful new school year ahead. We believe kids get better at math with practice, resulting in confidence and positive attitude towards math that is required to excel in school. This workbook provides kids with additional math practice that reinforces and complements what is taught at school. There are no pictures or word problems, and focus on mastery of basic addition and subtraction. This workbook combines

traditional addition and subtraction math problems, with number bond problems. Many elementary schools teach math using Number Bonds, and we want kids to have practice on both traditional math questions and number bonds to build fluency and speed in basic arithmetic.
