Transportation Management with SAP TM 9 May 12 2022 The implementation of a TMS solution is a highly complex and mission critical project. If executed correctly a good TMS can deliver a number of

benefits to the organization in terms of optimization, greater efficiency, reduced errors and improved revenue through accurate invoicing. However a number of projects fail to realize these benefits for a host of reasons such as an incorrect product selection, over customization of the system and lack of detailed processes. The evaluation and selection of the right transportation management system is a very critical step in the successful implementation of a TMS product as well as ensuring that the organization is able to realize the benefits expected from the system. Transportation Management with SAP TM 9 is a guide for CIO/CXOs evaluating options for various transportation management solutions available in the market and helps in appropriate decision making before committing investment. A proven evaluation framework and guidance provided in the book can help decision makers with product selection and help to create a business case for management approval and design a future roadmap for the organization. The book provides a comprehensive understanding of what SAP transportation management is and is useful for teams involved in TM Implementation and roll outs to ensure preparedness. The book explains end-to-end freight life cycle processes, functional system landscape, implementation challenges and post go-live precautions required to optimize investments in SAP TM. Transportation Management with SAP TM 9 also acts as a step by step implementation guide with details of configuration required to set up a TM9 system. This book also covers the upgrade of SAP TM8 to SAP TM9 which will be useful for existing clients who are on TM 8. Nonavailability of SAP TM skilled resources is a major challenge faced by organizations and the book provides a detailed competency building plan along with skill set requirements to create a competent and trained workforce to manage-transformation. The current book available in the market on SAP TM is based on Version 6 release which does not cover air freight processes. Our book covers end-to-end air freight configuration scenarios for logistic companies.

First Steps in SAP® S/4HANA Sales and Distribution (SD) Jul 22 2020

This book offers a comprehensive introduction to SAP S/4HANA Sales and Distribution (SD). You will learn the basic fundamentals of SAP SD, with examples based on a case-study approach. Using a fictional company scenario, you will learn the fundamentals of the order-to-cash process and key flow, from sales order delivery to billing document. Explore the foundational document—the sales order. Obtain detailed information on master data and how it is used in SD. Dive into master data objects, business partners, and material masters. Review how master data is connected to sales orders and pricing. Understand sales order processing, including item categories, availability checking, dates, shipping, texts, and more. Walk through delivery processing and billing. Familiarize yourself with two of the major SD pre-sales documents — contracts and quotations. Delve into the post-sales processes, including returns, service, and debit and credit memos. Look at transactional list reports and analytical reports. For readers who are new to SAP SD in S/4HANA, the detailed case study, practical examples, tips and screenshots quickly bring readers up to speed on the fundamentals. - Foundations of SAP SD in S/4HANA - Sales orders and document types - Master data objects, business partners and material masters - Examples and screenshots based on a case-study approach

SAP S/4HANA Oct 13 2019

Logistics with SAP S/4HANA Sep 23 2020 Transform your logistics operations with SAP S/4HANA! With this introduction, see what SAP has in store for each supply chain line of business: sales order management, manufacturing, inventory management, warehousing, and more. Discover how SAP Fiori apps and embedded analytics improve reporting, and explore the intersection between your supply chain processes and new SAP Leonardo technologies. Take your first look at SAP S/4HANA logistics, and see where it will take your business! a. Key Processes Advances in SAP S/4HANA are changing your supply chain. Explore planning and scheduling, transportation management, inventory management, manufacturing, warehousing, sourcing and procurement,

plant maintenance, and more! b. The Future of Logistics Uncover what's new and improved in SAP S/4HANA for your logistics LOBs, such as centralized procurement to demand-driven MRP. See how technologies like IoT and machine learning can accelerate your core supply chain processes. c. Migration Once you see the logistics big picture, you can plan your next steps. Learn how to design your roadmap, evaluate your technical and functional conversion steps, and prepare your system for your desired migration path. 1) Sourcing and procurement 2) Inventory management 3) Warehouse management 4) Production planning 5) Manufacturing operations 6) Plant maintenance 7) Quality management 8) SAP Fiori applications 9) SAP Leonardo technologies 10) Implementation and migration 11) SAP S/4HANA 1809

Transportation Management with SAP Apr 11 2022 Navigate the changing landscape of transportation management! With this comprehensive guide, learn how to configure and use TM functionality in both SAP TM 9.6 and SAP S/4HANA 1809. Start with the TM fundamentals: solution options, architecture, and master data. Then walk step by step through key TM processes such as transportation planning, subcontracting, and charge management. Using well-tread industry best practices, optimize TM for your business! Highlights include: Order and capacity management Transportation planning Master data Carrier selection Subcontracting Execution and monitoring Charge management Settlement and calculation Integration Best practices

SAP Enterprise Structure Concept and Configuration Guide - A Case Study Jun 13 2022 This book explains in details about the SAP Enterprise Structure (MM and related modules such as FI, LE, SD) Concept and Configuration Guide. I wrote the e-book in a simple-to-understand way, so you can learn it easily. After understanding the concept, the e-book will show the step-by-step configuration with the screen shots.

Rapid Deployment of SAP Solutions Oct 25 2020 Rapid deployment: welcome to the new way to implement SAP solutions! This book will get you up to speed on the new, preconfigured implementation methodology

from SAP, and explain its business benefits for you and your company: implement solutions better, faster, and more cost effectively than ever before. You'll understand what the Rapid Deployment approach involves, the services it includes, how it will benefit you, and you'll see real-world case studies from varying companies.

Fundamentals of SCM-EWM Dec 19 2022 Understanding various SAP solutions for managing inventory and configuring the Extended Warehouse Management (EWM) system independently requires an understanding of the options, intricacies, and variables that go into crucial Supply Chain Management (SCM) decision-making. Written for SAP consultants, those interested in a career in SCM-EWM, and SAP customers simply interested in selecting the right solution for their inventory and warehouse needs, this is the first and only reference text you need. Comprehensive, highly detailed, and easy to understand, Rajesh Mendonca and Janet Mascarenhas's debut simplifies the complex by following a highly logical, linear format that explains the processes with the utmost clarity. Included in this groundbreaking text are: tables that simplify the sea of pertinent information; diagrams explaining and connecting configuration objects; step-by-step procedures involved in the configuration process; screenshots that help visualize the system without actually logging into it in order to connect to the practical environment; and live examples examining and providing solutions for warehouse challenges, all of which will guarantee that by referring to this book you will be able to confidently and successfully configure the system on your own. SAP customers as well as consultants who read this book will have a clear understanding of the different solutions available in SAP to manage inventory and be able to make informed decisions regarding most effective solutions for their warehouse needs. Full of extraordinarily precise, detailed analysis, Mendonca and Mascarenhas provide the most exhaustive primer of its kind on the market today. Applicable through every phase of the EWM process with a value far beyond the standard guidebook currently available, *Fundamentals of SCM-EWM: A Step-by-*

Step Guide is a must-have for anyone using, consulting on, or contemplating a career in SCM-EWM. You can buy this book and learn EWM by yourself by renting EWM and ECC server or you can take EWM configuration training from us. More details are available in our website [www.ewmguru.com](http://www.ewmguru.com)

**SAP EWM Architecture and Programming Jul 14 2022** Explore extension options in SAP EWM and see how you can meet the unique functionality requirements of your warehouse. Find out how to make UI changes to transactions or generate condition-dependent actions, learn to program SAP EWM's software components, and extend the Preconfigured Warehouse solution. With detailed examples and sample code, you can ensure that your warehouse management suits your business precisely

**Architecture and Frameworks** Understand the individual software components that make up SAP EWM and how they integrate with SAP ERP. Find out about extended functionality through the use of the SAP EWM frameworks and the Preconfigured Warehouse solution.

**Function Modules and Methods** Learn about the function modules and methods used to extend SAP EWM, including Read Warehouse Requests, Get Stock, Get Transportation Units, and more.

**Useful Business Add-Ins** Discover the most frequently used BAdIs in SAP EWM, and learn their functions and how to make the most of them.

**Highlights:** SCDL delivery processing Work Center Radio Frequency Framework Post Processing Framework Easy Enhancement Workbench SAP LUW in EWM Function modules Wave management Exception handling Transaction management Warehouse Monitor Easy Graphics Framework

**SAP S/4HANA Embedded Analytics Jun 20 2020** Meet your BI needs with SAP S/4HANA embedded analytics! Explore the system architecture and data model and learn how to perform analytics on live transactional data. Business user? Walk step-by-step through SAP Smart Business KPIs, dashboards, and multidimensional reporting. Analytics specialist? Master the virtual data model and report creation. Jack of all

trades? Create CDS views, apply custom fields and logic, and learn to integrate SAP S/4HANA with SAP Analytics Cloud. This is your complete guide to SAP S/4HANA embedded analytics! Highlights include: 1) Architecture 2) Virtual data model (VDM) 3) CDS views 4) SAP Fiori apps 5) SAP Smart Business 6) Key performance indicators (KPIs) 7) Dashboards 8) Reporting 9) Data warehousing 10) SAP Analytics Cloud 11) Machine learning

Practical Guide to SAP Transportation Management (TM) Oct 17 2022  
Managing the movement of goods from one place to another is just one small requirement of a Transportation Management (TM) software. To understand the complete process, there is so much more to consider. This guide provides a comprehensive overview of the transportation processes supported by SAP TM 9.3 including functional highlights, system architecture options (including HANA), and integration aspects. Dive into planning, execution, and tracking processes and detailed configuration. Get best practices on how to best set up capacity management functionality and learn more about charge calculation and settlement. This hands-on guide is for those new to SAP TM, as well as experienced solution consultants, and includes step-by-step descriptions and screenshots. - A Comprehensive Overview of All of the Processes Enabled by SAP TM - Configuration Best Practices for All Modes of Transport - Instructions for Integrating Transportation Requirements - Tips on Integration with SAP ERP, EWM, GTS, EH&S, EM - Options for Manual, Semi-automated, and Completely Automated Planning  
Migrating to SAP S/4HANA Jan 28 2021

SAP Activate Jan 08 2022 SAP S/4HANA is here, and the stakes are high. Get your project right with this guide to SAP Activate! Understand the road ahead: What are the phases of SAP Activate? Which activities happen when? Start by setting up a working system, then walk through guided configuration, and learn how to deploy SAP S/4HANA in your landscape: on-premise, cloud, or hybrid. Take advantage of SAP Activate's agile methodology, and get the guidance you need for a smooth

and successful go-live! In this book, you'll learn about: a. Foundations Get up to speed with SAP Activate. Learn about key concepts like fit-to-standard and fit/gap analysis, understand the methodology, and walk through the key phases of project management. b. Tools and Technologies Open up your SAP Activate toolkit. See how to access SAP Activate content with SAP Best Practices Explorer, SAP Solution Manager, and more. Then, use SAP Best Practices and SAP Model Company to set up a working system for your workshops. c. Deployment Deploy SAP S/4HANA, step by step. Follow detailed instructions to plan, prepare for, and execute your on-premise or cloud deployment activities according to SAP Activate. Walk through key scenarios for a hybrid implementation of SAP S/4HANA in your landscape. Highlights Include: 1) Deployment 2) Guided configuration 3) Agile project delivery 4) SAP Best Practices 5) SAP Model Company 6) Organizational change management 7) SAP S/4HANA 8) SAP S/4HANA Cloud 9) Hybrid landscapes 10) C\_ACTIVATE05 certification

Implementing SAP Global Trade Services Feb 15 2020 Don't get tied up in global trade red tape! Navigate the complex web of regulations with this guide to implementing SAP Global Trade Services. Learn the ins and outs of SAP GTS and how it connects to SAP ERP and SAP S/4HANA. Get step-by-step instructions to configuring compliance, customs, and risk management functionality, and explore your reporting options. Get insight into global trade innovations, in SAP GTS 11 and beyond! Highlights include: 1) System architecture 2) System navigation 3) Baseline settings 4) Master data 5) Classification codes 6) Compliance, customs, and risk management 7) Trade preference management 8) Foreign trade zones 9) Reporting 10) Technical objects

SAP S/4HANA Cloud Apr 18 2020 SAP S/4HANA Cloud has a lot to offer-see what's possible! Explore core functionality like finance, logistics, and reporting with embedded analytics. Learn how SAP S/4HANA Cloud impacts your users and how it can be extended, integrated, and adopted by your organization. Get information on the

latest intelligent technologies and see how SAP S/4HANA Cloud can help unify and streamline your business. A bold new world awaits in the cloud! Highlights include: 1) User experience 2) Analytics 3) Business functionality 4) Global business processes 5) Extensibility 6) Integration 7) Adoption 8) Lifecycle management 9) Intelligent enterprise

Sourcing and Procurement in SAP S/4HANA Jan 16 2020

Materials Management with SAP S/4HANA Feb 09 2022 Materials management has transitioned to SAP S/4HANA--let us help you do the same! Whether your focus is on materials planning, procurement, or inventory, this guide will teach you to configure and manage your critical processes in SAP S/4HANA. Start by creating your organizational structure and defining business partners and material master data. Then get step-by-step instructions for defining the processes you need, from creating purchase orders and receiving goods to running MRP and using batch management. The new MM is here! Material master data Business partner master data Batch management Purchasing Quotation management Material requirements planning (MRP) Inventory management Goods issue/goods receipt (GI/GR) Invoicing Valuation Document management Reporting

Warehouse Management with SAP EWM Feb 21 2023 Got questions about SAP Extended Warehouse Management? This configuration guide can help You'll start by learning the ins and outs of SAP EWM setup:

defining organizational structures, working with master data, and configuring settings. Then move on to business processes: goods receipt, goods issue, internal movement, shipping and receiving, and labor management. Get the most out of SAP EWM Configuration Find out how to map organizational structures, model the layout of your warehouse, and handle master data to successfully execute warehouse activities. Business Processes Learn the details of inbound and outbound processing, shipping and receiving, inventory, quality management and monitoring, RF frameworks, and labor management. Integration Discover how to integrate SAP EWM with both SAP ERP and other applications such as SAP Business Warehouse, SAP Global Trade Services, SAP RFID, and more. Highlights: Configuration Warehouse structure Master data Goods receipt and issue Internal movements Warehouse monitoring Quality management Cross-docking Material flow systems Kitting

Implementing SAP Manufacturing Execution Jul 02 2021 Use this practical resource to get SAP ME up and running in a snap. Configure SAP MEs routing design, data collection, and shop order management functions to your unique business requirements with detailed instructions. Use case study-based illustrations to understand and use the customizations SAP ME offers, including Web Service APIs, advanced reporting, and shop floor systems integration. Make sure your manufacturing execution is in great shape, from the shop floor up!

Variant Configuration with SAP Mar 18 2020 Need to know about Variant Configuration in SAP? Look no further. This is your complete resource to implementing, setting up, and using variant configuration with SAP ERP 6.0 and CRM 2007. You'll learn about the business processes and integration issues, details of configuration in SAP CRM, special features of industry solutions, extensions of SAP customers and partners, and the selected challenges of using variant configuration. The book provides real-world case studies and customer examples, so you can learn about the dos and don'ts of variant configuration projects in a business environment.

**Sales and Distribution in SAP ERP Dec 15 2019** In this book for Sales and Distribution business users, you'll get simple explanations to the most common SD tasks, with helpful screenshots and lists of transaction codes you'll use. Start the journey with master data setup, and then move on to explore sales, shipping, and billing tasks. Elevate your functional skills by mastering reporting and financial supply chain activities.

**SAP CATS May 20 2020** Smooth out the bumps in your employee tracking and project monitoring processes with this resource on SAP Cross-Application Time Sheet (CATS)! Explore the different core functions of CATS, such as approval and transfer processes. Then learn how to configure CATS to make it unique to your business requirements, like time entry approval. Whether you need to get data set up in your CATS system, manage employees activities, or add enhanced functionality, this is the book you need.

**Configuring SAP R/3 FI/CO Jun 01 2021** Configure the FI and CO Modules to Meet All Your Business Requirements **Configuring SAP R/3 FI/CO** is the only book of its kind: a detailed, practical guide to configuring R/3's two most popular modules. Written by the experts responsible for R/3 configuration in a Fortune 200 company, it provides detailed instructions and examples for all the Financial and Controlling submodules—information that will help you make good on your company's sizable investment. Coverage includes: FI Enterprise Structure General Ledger Substitutions and Validations Automatic account assignments Accounts Payable Accounts Receivable Credit Management Lockbox CO Enterprise Structure Cost Element Accounting Cost Center Accounting Internal Orders CO settlement Profitability Analysis (CO-PA) Profit Center Accounting Investment Management Visit this book's companion Web site at [www.virtuosolllc.com](http://www.virtuosolllc.com) for additional coverage of FI/CO configuration techniques.

**SAP Warehouse Management Apr 30 2021** Explore all of the most important aspects of SAP WM, including Master Data, Stock Replenishment, Picking and Putaway strategies, and Storage Unit

Management. By focusing on the basic aspects of each area before fully exploring the detailed functionality, you'll uncover invaluable technical configuration insights and gain a comprehensive understanding of SAP WM - while drastically enhancing your knowledge and expertise.

**Configuring Sales in SAP S/4HANA Sep 04 2021** Looking to get SAP S/4HANA Sales up and running? This book has all the expert guidance you need! Start with the organizational structure and master data, including customer-vendor integration. Then follow click-by-click instructions to configure your key SD processes. Including SAP Fiori reports and KPIs, this is your all-in-one sales resource!

**Optimizing Reverse Logistics with SAP ERP Aug 15 2022** This is the book you need to master reverse logistics. You'll learn how to configure and use SAP ERP to optimize reverse logistics practices, particularly returns, repairs, and refurbishment. And with the step-by-step instructions, real-world examples, and tips provided throughout, you'll find many ways to streamline your processes and make your business perform more efficiently. This is the book that will ensure you're getting the most out of the reverse logistics tools in SAP ERP.

**Basic Principles of Reverse Logistics** Explore what reverse logistics is and how it can help you develop a more efficient and cost-effective business.

**Reverse Logistics Functionalities** Get a thorough understanding of the various reverse logistics processes, and learn how they are executed within SAP ERP.

**SAP ERP Configuration** Learn how to customize SAP ERP for reverse logistics to work for your needs.

**Finance in Reverse Logistics** Learn how to recapture value for reverse logistics with accounting and valuation in SAP.

**Real-World Examples and Tips** Use the insider tips provided throughout to find solutions to your own reverse logistics issues.

**Introducing SAP Yard Logistics Nov 06 2021** Clean up your yard! See how SAP Yard Logistics connects your warehousing and transportation operations with this practical book. --

**The SAP Materials Management Handbook Mar 10 2022** Although tens of thousands of global users have implemented Systems, Applications,

and Products (SAP) for enterprise data processing for decades, there has been a need for a dependable reference on the subject, particularly for SAP materials management (SAP MM). Filling this need, The SAP Materials Management Handbook provides a complete understanding of how to best configure and implement the SAP MM module across various types of projects. It uses system screenshots of real-time SAP environments to illustrate the complete flow of business transactions involved with SAP MM. Supplying detailed explanations of the steps involved, it presents case studies from actual projects that demonstrate how to convert theory into powerful SAP MM solutions. Includes tips on the customization required for procurement of materials and inventory management Covers the range of business scenarios related to SAP MM, including the subcontracting cycle and consignment cycle Provides step-by-step guidance to help you implement your own SAP MM module Illustrates the procure to pay lifecycle Depicts critical business flows with screenshots of real-time SAP environments This much-needed reference explains how to use the SAP MM module to take care of the range of business functions related to purchasing, including purchase orders, purchase requisitions, outline contracts, and request for quotation. It also examines all SAP MM inventory management functions such as physical inventory, stock overview, stock valuation, movement types, and reservations—explaining how SAP MM can be used to define and maintain materials in your systems.

SAP Extended Warehouse Management Nov 18 2022 This is the definitive guide to SAP EWM, covering everything from a general functional overview to detailed system setup and configuration guidelines. You'll learn about the key capabilities of the EWM solution; explore the configuration elements available in the standard solution; discover the methods used to solve common business process requirements; and find out how to extend the solution to meet your more complex or unique business requirements. The Warehouse Structure: Learn about the warehouse structure, which provides the baseline for

modeling warehouse processes. **Product Master Data:** Understand why effective master data management is critical to the success of any SAP EWM implementation, and how it can help you maximize the value of the application to your organization. **Physical Inventory (PI):** Explore the capabilities of SAP EWM that support PI, including the main objects used by PI, supported procedures, and integration with Resource Management. **Warehouse Monitoring and Analytics:** Read about the various tools available for monitoring and reporting on warehouse activities, including the Warehouse Management Monitor, the Easy Graphics Framework, and SAP NetWeaver Business Warehouse. **Deploying EWM:** Gain an understanding of the deployment options for SAP EWM, and how to use the automated configuration method and data load programs to get you started quickly.

**Warehouse Management with SAP ERP Sep 16 2022** Ensure an efficient and orderly Warehouse Management implementation with this comprehensive guide to SAP WM in SAP ERP Learn to customize and use critical functionalities, like goods receipt and goods issue, as well as advanced technologies such as RFID, EDI, and mobile data entry.

Covering everything from stock management to picking strategies, you'll master SAP WM. This new edition includes ITSmobile, connections with SAP ERP PP and QM, the warehouse activity monitor, and more. **SAP WM Processes** Grasp the essentials of warehouse management, including goods receipt, goods issue, replenishment, and putaway. Then master advanced topics such as hazardous materials management, cross-docking, and value-added services. **SAP WM Configuration** Understand the configuration details necessary to optimize your SAP WM implementation, from storage bins to yard management. **Real World Scenarios** Explore concrete business cases and examples to help you put expert tips into practice in your own warehouse. **Highlights:** -Stock management -Goods receipt and goods issue -Replenishment -Picking strategies -Putaway strategies -Inventory management -Yard management -Electronic Data Interchange (EDI) -Radio frequency identification

(RFID) -ITSmobile

SAP S/4HANA Architecture Aug 23 2020 Pop the hood on SAP S/4HANA with this guide to its technical and application architecture! Understand the new data and programming models that underpin SAP S/4HANA and see how they differ from SAP ERP. Learn about technology components, like embedded analytics and integration. Then walk through the architecture of individual application areas like finance and logistics to see how they work and interact. Considering SAP S/4HANA Cloud? Explore scoping, compliance, performance, and more. Get the complete blueprint to SAP S/4HANA! a. Technical Architecture Build your understanding of SAP S/4HANA's technical foundation. Explore capabilities like analytics, interfaces, enterprise search, and the SAP Fiori user experience. See how the virtual data model and the ABAP RESTful programming model work. b. Application Architecture Learn about SAP S/4HANA's master data types. Then step through each application area to explore its key architecture components: sales and service operations, procurement, project management, manufacturing, transportation management, extended warehouse management, and finance. c. SAP S/4HANA Cloud Discover the architecture of SAP S/4HANA Cloud, whether it's identity and access management, security and compliance, or side-by-side extensions. Learn how SAP S/4HANA Cloud manages tasks and explore the fundamentals of configuration. 1) SAP S/4HANA 2) SAP S/4HANA Cloud 3) Master data 4) Sales and service 5) Logistics and manufacturing 6) Transportation management 7) Extended warehouse management 8) Finance 9) Identity and access management 10) Security and compliance 11) Cloud operations 12) Side-by-side extensions

Demand Management with SAP Aug 03 2021 The book is the first resource that managers and business leaders need to understand and effectively use SAP's demand management tools. It reviews the SAP strategies and business processes of demand management, while teaching how to configure the relevant SAP solutions. This book will answer the

question, What is demand management from the SAP perspective? and then explain how to use SAP APO and other key solutions to manage it effectively.

SAP Event Management - Still SAP's Best Kept Secret... Dec 07 2021  
SAP EM is SAP's standard solution for monitoring business process status and providing proactive exception management. Five years after the first edition, we now unveil far more details than before. In particular, we now include new chapters covering SAP Transportation Management and SAP Global Trade Services and their use of SAP EM and Operational Management. In addition, we also cover the new SAP EM releases all the way up to Release 9.2, which is in ramp up at the time of publication. We discuss SAP EM with HANA and even bring Fiori in to the discussion. Many tips, tricks and sample code are found throughout the book. We have also greatly spruced up the additional information chapter, which is now a "must have" for any SAP EM consultant or developer to use as a reference guide. The complete IMG, together with verified transactions, are listed in this chapter. If you want to see how to call the SAP EM web service using an ABAP proxy, then check out the section under "development stuff."

Demand Driven Material Requirements Planning (DDMRP) Nov 25 2020 "An intuitive proven planning and execution method for today's complex and volatile supply chains"--Cover.

Warehouse Management in SAP S/4HANA Jan 20 2023 How do you run your warehouse with SAP S/4HANA? This comprehensive guide has the answers! Begin by setting up your embedded Extended Warehouse Management (EWM) system using organizational structures and master data. Then master your essential processes such as goods issue and receipt, putaway, picking, and taking inventory. Bring everything together with information on advanced tasks like cross-docking, value-added services, kitting, and integration with SAP TM and SAP GTS!--

SAP Activate Project Management Certification Guide Nov 13 2019  
Preparing for your SAP Activate project management exam? Make the

grade with this certification study guide to C\_ACTIVATE12! From agile project planning and delivery to new implementations and system conversions, this guide will review the technical and functional knowledge you need to pass with flying colors. Explore test methodology, key concepts for each topic area, and practice questions and answers. Your path to SAP Activate certification begins here! In this book, you'll learn about:

- a. The Test Know what to expect on exam day so you can take your test with confidence. This guide follows the exact structure of the exam, so align your study of SAP Activate with the test objectives and walk through topics covered in C\_ACTIVATE12.
- b. Core Content Review major subject areas like SAP Activate elements, workstreams, new implementation, and system conversion. Then master important terminology and key takeaways for each subject.
- c. Q&A After reviewing each chapter, solidify your knowledge with questions and answers for each section and improve your test-taking skills.

Highlights include: Explain the important product characteristics in list form.

- 1) Exam C\_ACTIVATE12
- 2) SAP Activate methodology
- 3) SAP Best Practices
- 4) Agile project planning and delivery
- 5) Workstreams
- 6) New implementation
- 7) System conversion
- 8) Selective data transition
- 9) SAP S/4HANA (on-premise)
- 10) SAP S/4HANA Cloud, essentials edition
- 11) SAP S/4HANA Cloud, extended edition

Configuring Batch Management in SAP S/4HANA Feb 26 2021

Sales and Distribution with SAP® Mar 30 2021 The book shows how to design the most important business processes in the sales area of each company by using the SAP module SD. It contains valuable tips and examples that show sales reps and managers and distribution center employees how to get up and running quickly with SAP while saving time and money. The book provides a concise introduction setting out the case for integrating business functionality on the web. Furthermore the book helps to understand SAP APO in the context of SCM. It is addressed specifically to those who need to implement APO in the context of the sales processes. Last not least the author offers a walk-

through of the process, from inception through planning, designing and testing.

Inventory Management with SAP S/4HANA Oct 05 2021 Jump-start your inventory operations in SAP S/4HANA! Review basic inventory practices and consult step-by-step instructions to configure SAP S/4HANA for your organization's requirements. Then put the system to work! Run the SAP Fiori applications that guide your core inventory workflows: inventory planning, goods receipt, core inventory, production planning, and inventory analysis. This hands-on guide to inventory has the details you need! In this book, you'll learn about:

- a. Inventory Planning Set up a successful inventory management system. Understand how to implement key planning strategies like make-to-order, make-to-stock, MRP Live, and Kanban in your SAP S/4HANA system.
- b. Inventory Execution Ensure your system runs smoothly. Tap into the potential of SAP Fiori applications and execute core inventory processes such as exception handling, physical inventory, transfers, and more.
- c. Inventory Analysis Make the most of your inventory analytics tools. See what's offered with SAP S/4HANA, such as real-time data and role-based design; then dive in to CDS views, KPI monitoring, custom queries, and more.

Highlights Include: 1) Inventory optimization 2) Inventory planning 3) Goods receipt 4) Core inventory 5) Production planning 6) Inventory analysis 7) Configuration 8) Deployment 9) SAP Fiori applications
