Academically Adrift Feb 24 2021 In spite of soaring tuition costs, more and more students go to college every year. A bachelor's degree is now required for entry into a growing number of professions. And some parents begin planning for the expense of sending their kids to college when they're born. Almost everyone

strives to go, but almost no one asks the fundamental question posed by Academically Adrift: are undergraduates really learning anything once they get there? For a large proportion of students, Richard Arum and Josipa Roksa's answer to that question is a definitive no. Their extensive research draws on survey responses, transcript data, and, for the first time, the state-of-the-art Collegiate Learning Assessment, a standardized test administered to students in their first semester and then again at the end of their second year. According to their analysis of more than 2,300 undergraduates at twenty-four institutions, 45 percent of these students demonstrate no significant improvement in a range of skills—including critical thinking, complex reasoning, and writing—during their first two years of college. As troubling as their findings are, Arum and Roksa argue that for many faculty and administrators they will come as no surprise—instead, they are the expected result of a student body distracted by socializing or working and an institutional culture that puts undergraduate learning close to the bottom of the priority list. Academically Adrift holds sobering lessons for students, faculty, administrators, policy makers, and parents—all of whom are implicated in promoting or at least ignoring contemporary campus culture. Higher education faces crises on a number of fronts, but Arum and Roksa's report that colleges are failing at their most basic mission will demand the attention of us all.

The Strike Out Dec 25 2020 It started with one night out with the boys. She was the hot diner waitress putting herself through school. I was the rich, arrogant player everyone misjudges. On paper we didn't match. Yet all it took was one day. One single day to change her mind. She wasn't planning to spend her day off with me. She wasn't supposed to fall for my charm. But one day, one smile, turned into several nights of her calling out my name. I'm not the guy she should end up with. I'm jealous, possessive. Not here for a long time - just a good time. She's changed me. But, for some reason, I feel her slipping through my fingers and no matter what I do, I fear I'm going to strike out with the one and only girl I've ever fallen for.

The Setup Jan 26 2021 I've fallen victim to a heinous act. An act so vile, so downright dirty, that I'm not sure as a twenty-year-old man I'll ever recover. Brace yourself, because what I'm about to tell you might have you gasping in secondhand horror. Ready? Here it goes . . . I've recently become the pawn of a meddling mom. Yes . . . A MEDDLING MOM--who's been trying to set me up all summer. Now, I understand it's not a crime for a mother to want her child to fall in love, but when she makes it her relentless MISSION, the heinous act should be classified as a misdemeanor at least. Of course, my mom, the evil matriarch in the devil's leggings, made her final stab at finding a girl for me days before I went back to college. And I hate to admit it, but she saved a doozy for last. A titan in black skinny jeans. A boss of nonchalance. And a girl who would not only turn my life upside down, but do it while juggling a soccer ball, looking effortlessly gorgeous around campus, and is one hundred percent against relationships. Of any sort. Thanks, Mom.

Teach Yourself How to Learn Oct 03 2021 Following up on her acclaimed Teach Students How to Learn, that describes teaching strategies to facilitate dramatic improvements in student learning and success, Sandra McGuire here presents these "secrets" direct to students. Her message is that "Any student can use simple, straightforward strategies to start making A's in their courses and enjoy a lifetime of deep, effective learning." Beginning with explaining how expectations about learning, and the study efforts required, differ between college and secondary school, the author introduces her readers, through the concept of

metacognition, to the importance and powerful consequences of understanding themselves as learners. This framework and the recommended strategies that support it are useful for anyone moving on to a more advanced stage of education, so this book also has an intended audience of students preparing to go to high school, graduate school, or professional school. In a conversational tone, and liberally illustrated by anecdotes of past students, the author combines introducing readers to concepts like Bloom's Taxonomy (to illuminate the difference between studying and learning), fixed and growth mindsets, as well as to what brain science has to tell us about rest, nutrition and exercise, together with such highly specific learning strategies as how to read a textbook, manage their time and take tests. With engaging exercises and thought-provoking reflections, this book is an ideal motivational and practical text for study skills and first year experience courses.

The Worst Guy Feb 13 2020 Sebastian Stremmel is in one hell of a mood. He's been there for about 42 years. He's not about to change so don't bother asking. Another thing he doesn't want to do? Deal with the noisy new know-it-all reconstructive surgeon Sara Shapiro who won't stop stomping around his surgical floor like she has a single clue how to handle trauma cases. She doesn't, and he has no problem telling her as much... even if it lands them both in eight weeks of hospital mandated conflict resolution sessions. Eight weeks is a long time to slog through communication exercises with someone you dislike on a cellular level, but as if that wasn't enough, she's moved into his apartment building too. Now, he can't turn around or close his eyes without seeing her golden hair shining back at him and hearing her throaty laugh in his head. He doesn't want to like her. She's loud and knows everything, and her snack preferences are absurd and she doesn't seem to wear panties under her scrubs, and he doesn't want to like her at all. He doesn't want to find comfort in the rare slice of softness she shows him and he doesn't want to discover desire like he's never known before in her bed. He doesn't. But even the worst moods are bound to change eventually.

She'll never truly fit into Oliver's world, but just as she's ready to call off the fake relationship, fancy dinners, and elegant balls, a threat from her past forces both Oliver and Harriet to discover that love can come in the most surprising packages.

The Leader in Me Jun 30 2021 Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

Falling Out of Hate with You Sep 21 2020 I've tried to like Adrian

Savage, the mercurial frontman for Fugitive Summer, while serving as his band's opening act on tour. We're stuck together for three months, after all. And I'm well aware I'm lucky to be here. But it's proved impossible. He's far too rude and dismissive a guy to get along with. And way too good at getting under my skin. In fact, at this point, I think it's fair to say I downright hate his guts. Global thirst trap that he is, though, I'm finding it extremely difficult not to want to jump Savage's bones, despite how much he infuriates me. I hate myself for it. But my body is going rogue on me. It doesn't matter, though. I'm determined to resist him. In fact, what I've decided is that, as long as I'm here and stuck with him, I'm not only going to give Savage the sound tongue lashing nobody else around here has the balls to deliver, I'm going to bring that bad boy to his knees.
